# Icon Introduction

Choosing the product that is right for you can be a complex task, especially when faced with such a large range of products and so many different features.

We have made this easier with our simple user-friendly icons. Each icon represents a feature or benefit, so all you need to do is pick the icons you are interested in and look out for them in the datasheets.

## Sensor

**High Definition (HD)**  
Video standard including 720p (1280 x 720) and 1080p (1920 x 1080).

**8 Megapixel (8MP)**  
High resolution (4000 x 3000) with 4:3 aspect ratio.

**Wide Dynamic Range (WDR)**  
Captures images in high-contrast lighting conditions.

**Low Light**  
Allows images and footage to be captured at night or in areas where light levels are between 0.5 and 0.01 lux.

**4 Megapixel (4MP)**  
High resolution (2560 x 1440) with 4:3 aspect ratio.

**12 Megapixel (12MP)**  
High resolution (4000 x 3000) with 4:3 aspect ratio.

**Dual Wide Dynamic Range**  
Captures images in high-contrast lighting conditions by using two pixels for light and dark. Significantly better than standard WDR.

**Image Stabilisation**  
A means of cancelling out any natural movement of a camera due to wind or vibration.

**6 Megapixel (6MP)**  
High resolution (2880 x 2160) with 4:3 aspect ratio.

**High Resolution (4K)**  
Higher quality than conventional HD or MP. 4000 x 3000 pixels provide more detailed footage.

**Day/Night**  
A mechanical infrared (IR) filter allows the camera to operate normally during the day and then switch to mono as it grows darker.

## Compression

**H.265**  
A motion-based video compression format.

**JPEG2000**  
A still-image compression standard that allows images to be displayed in multiple resolutions.

**Guaranteed 25fps**  
25 frames per second (fps) is guaranteed at maximum resolution using IndigoVision's unique video processing technology.

**Up to 25fps**  
The camera can stream at a rate of 25 frames per second (fps) at maximum resolution.

**Advanced Audio Coding (AAC)**  
An audio compression and encoding format. It delivers higher quality audio than traditional G.711 format.

**H.264**  
A motion-based video compression format.

**MPEG-4**  
A motion-based video compression format.

**Up to 60fps**  
The camera can stream at a rate of 60 frames per second (fps) at maximum resolution.

**Up to 12fps**  
The camera can stream at a rate of 12 frames per second (fps) at maximum resolution.

**G.711**  
An audio compression format commonly used in digital transmission systems. It samples at 8kHz and streams at 64kbps.

**IndigoVision H.264**  
Optimised H.264 video codec meaning lower bandwidth and reduced storage.

**MJPEG**  
Motion JPEG – a stills-based video compression format.

**Up to 30fps**  
The camera can stream at a rate of 30 frames per second (fps) at maximum resolution.

**Field Programmable Gate Array (FPGA)**  
Hardware processor used to encode video, ensures guaranteed frame rate.

**MP2**  
An audio compression format commonly used in audio broadcasting systems.

# Intelligence

**Activity Controlled Frame Rate (ACF)**  
Frame rate reduces when no motion is detected using basic analytics – up to 90% reduction in storage requirements.

**Activity Controlled Frame Rate + (ACF+)**  
Reduces frame rate when no motion is detected using advanced analytics. Greater than 90% reduction in storage requirements.

**Analytics**  
Advanced video analytics including: object detection, virtual tripwire, museum mode and object counter-flow.

**Motion Detection**  
Basic video analytics covering simple motion.

**CyberVigilant® Technology**  
Control Center-integrated network monitoring technology designed to monitor and detect network cybersecurity anomalies.

# Other

**Distributed Network Architecture (DNA)**  
Intelligence is at the edge of the system with no reliance on a central server; provides resilience and redundancy.

**Power over Ethernet (PoE)**  
Devices draw power and data from a single Ethernet cable, simplifying installation.

**Power over Ethernet (PoE+)**  
Devices draw power and data from a single Ethernet cable, simplifying installation.

**Power over Ethernet (Hi-PoE+)**  
Devices draw power and data from a single Ethernet cable, simplifying installation.

**Firewall**  
A security feature that regulates incoming and outgoing network traffic to guard against potentially malicious attacks on the system.

**ONVIF**  
Open Network Video Interface Forum – An industry forum to maintain a communication standard for IP video devices.

**BNC Connector**  
BNC, 75Ohm, Standard Definition video input(s).

**Watermark**  
A means of digitally protecting video data from tampering.

**Linux**  
A robust and reliable operating system designed for embedded appliances.

**Windows**  
Windows operating system.

**ATEX Certified**  
Certified to ATEX equipment directive (94/9/EC) for use in a potentially hazardous area or explosive atmosphere.

**IECEX Certified**  
Certified to IECEX standards for use in a potentially hazardous area or explosive atmosphere.

**INMETRO Certified**  
Certified to INMETRO standards for use in a potentially hazardous area or explosive atmosphere.

**cLCus Certified**  
Certified to cLCus standards for use in a potentially hazardous area or explosive atmosphere.

**Wearable Video**  
A standalone mobile camera that can be worn.

**CentOS**  
A robust and reliable operating system designed for embedded appliances.

# Physical

**Outdoor**  
Outdoor cameras feature a protective casing to protect them from the elements.

**IR**  
Integrated IR illumination for improved low light operation.

**Adaptive IR**  
Integrated Adaptive IR illumination with optimum scene illumination for improved low light operation.

**IK08**  
IK ratings measure the durability of protective casings through impact testing.

**IK10**  
IK ratings measure the durability of protective casings through impact testing. 10 is the highest rating.

**Low Temperature**  
Can function in temperatures as low as -50°C.

**High Temperature**  
Can function in temperatures as high as 50°C.

**In-Ceiling**  
In-ceiling cameras that can be mounted into false ceilings. This is less intrusive than conventional mountings.

**Integral Microphone**  
A built-in microphone such that audio may be listened to or recorded.

# Physical

**1U Height**  
Product is rack mountable and when mounted will occupy 1U in height.

**Redundant Power Supply**  
Product supports a redundant power supply that, when utilised, minimises the chance of a complete shutdown.

**180°**  
Hemispheric camera providing a 180-degree panoramic view (wall mount) for wide area of coverage and no blind spots.

**Hybrid NVR Workstation**  
Complete one-stop-shop powerhouse with built-in NVR capability.

**2U Height**  
Product is rack mountable and when mounted will occupy 2U in height.

**Redundant Network**  
Contains a redundant network connection so that vital network capabilities are always available when needed.

**360°**  
Hemispheric camera providing a full 360-degree surround view (Ceiling/floor/table mount) or 180-degree panoramic view (wall mount) for wide area of coverage and no blind spots.

**Peak Performance Model**  
Complete powerhouse, lighting-fast processing perfect for large sites.

**19" Rack**  
Product is rack mountable in a standard 19" rack.

**White Light Illumination**  
Camera's field of view is illuminated using standard white light.

**Mini Client Workstation**  
Efficient and ultra compact - designed to run small sites.

**Redundant Fans**  
Contains redundant fans to maintain operating temperature even under a fault condition.

# Zoom

**30x Optical**  
Operators can optically zoom in to view part of an image, revealing more detail without any loss in resolution.

# Storage

**ADAPT**  
ADAPT is a data protection scheme that maximizes flexibility, provides built in spare capacity, allows for very fast rebuilds, large storage pools, and simplified expansion.

**Dual RAID**  
A means of ensuring that RAID arrays remain intact, even if one of the RAID controllers fails.

**RAID6**  
A means of mounting multiple disks into a single storage volume.

**SATA**  
A type of hard disk drive.

**RAID5**  
A means of mounting multiple disks into a single storage volume.

**SAS**  
A type of hard disk drive.

# Integrations

**Alarm Integration into Control Center**  
Events and alarms from a third party system are forwarded into Control Center.

**Acknowledgement of IndigoVision Alarms from within a Third Party System Interface**  
One-click acknowledgement. An alarm is acknowledged in a third party system interface and the corresponding alarm is also automatically acknowledged in Control Center.

**Integrate Data Streams from Third Party Systems into Control Center**  
Continuous streams of data such as detected license plates or POS transaction data can now be managed within Control Center. Filter and search through sets of data for an easy side by side review of relevant data entries and their associated video recordings.

**Alarm Integration into Third Party Systems**  
Events and alarms from Control Center are forwarded into a third party system.

**Video Integration into Third Party Systems**  
Video streams (live and recorded video) from an IndigoVision system can be displayed embedded in the third party user interface.

**Integration of Recorded Video into Third Party System**  
Recorded video from an IndigoVision system can be imported, processed and filtered in BriefCam user interface.

**Acknowledgement of Alarms from a Third Party System from within Control Center**  
One-click acknowledgement. An alarm is acknowledged in Control Center and the corresponding alarm is also automatically acknowledged in the third party system interface.

**Manually Control Actions within the Third Party System - Directly from Control Center**  
Specific actions in the third party system are directly controlled from within Control Center, such as triggering a gate release mechanism.

**Integration of Recorded Video into Third Party System**  
Recorded video from an IndigoVision system can be imported, processed and filtered in BriefCam user interface.

# MANAGE

**Get the information you need at your fingertips to make fast, critical decisions.**

At IndigoVision, we know that security teams who have complete visibility of their site, along with immediate access to video, alarms and data, are able to resolve incidents in seconds and have a much greater chance of enhancing safety and protecting their people, property and assets.

Our suite of Management Software and Hardware products are designed to help you more effectively manage your security systems with the highest level of operator control.

Control Center, our renowned Video Management Software (VMS), is a fully integrated user interface for managing your video, alarms and third party systems. Pull up footage from any of your cameras in seconds, give your team complete situational awareness of any incident, day or night, and easily integrate with third party applications. Loved by operators for being an intuitive system to learn and use, you can be confident that employees of any experience level will be able to deal comprehensively with critical incidents that occur.

Our range of Management Software products increase the intelligence of your investigations and support your operating procedures. Our Command & Control Software enables you to consistently guide the response of your operators and ensure data-driven decision making from improved Business Intelligence, while our IndigoReports platform provides advanced analytics to enhance investigations and provide protection against cyber attacks. Get the flexibility to set up a bespoke security solution with our Management Hardware products, from Integra®, our “security system in a box”, to the monitors, workstations and accessories needed to configure your Control Room to meet modern security challenges.

# Control Center v17.1 IndigoUltra®

Your security solution of choice.

Control Center IndigoUltra® merges your choice of products, allowing a custom-tailored integrated system design. Performing reliably on any scale IndigoUltra® allows for quickest response times and accurate incident management.

With IndigoVision's Distributed Network Architecture, IndigoUltra® supports an unlimited number of client workstation installs and NVRs connected to the system; supporting continuous system growth whatever the future might bring.

Control Center is IndigoVision's effective, scalable and robust security management solution. It has an intuitive interface that provides easy system setup and efficient administration, saving you both time and money. Relentless testing and quality control 365 days a year ensure strong foundations for a robust, trusted security management offering.

## IndigoUltra® delivers:

-  Unlimited Device Connections
-  Unlimited Client Workstations
-  Unlimited NVR Connections

## Product Codes

Control Center

# Specification

General Specification	
Number of Device Connections	Unlimited
Number of Client Workstations	Unlimited (200 simultaneous connections per Site Database Server)
Number of NVR-AS Connections	Unlimited
Live Video	100 video streams (25 per screen)
GUI Themes	Light Mode / Dark Mode
Dynamic Profile Switching	✓
PTZ Control	✓
ONVIF PTZ Priority	✓
Audio	Receive / Record / Transmit*
Video Resolutions	up to 20MP*
Video Compression Formats	MPEG-4* / H.265* / H.264* / MJPEG* / JPEG2000*
Audio Compression Formats	AAC* / G.711*
Snapshots	BMP / JPEG
Privacy Zones	✓
Sequences, Salvos and Guard Tours	✓
Pursuit Mode	✓
Connect to Video Wall†	✓
Playback	25 streams
Synchronised Playback	✓
Reverse Playback	✓
Thumbnail Overview	Time / Alarm / Bookmark / Motion* / Audio*
Incident Export	Incident Player / 3rd Party Player (.mp4)*
Storyboard Export	Export recordings from multiple cameras at different times, in any order.
Recording Schedules	✓
Failover / Redundancy and Automatic NVR Switching	✓
Watermarking	Digital watermarking on recording and export
Maps	Multi-layered maps (BMP / JPEG / PNG / DWG), Tile Server
Webpages	✓
Zones	Group multiple inputs into a single alarm
Event Inputs	Digital Input* / Analytics* / Network Loss / Video Loss* / Motion Detection*
Third Party Inputs	Through IndigoVision Integration Modules or IndigoVision Binding Kit
Alarm Video	Live and looped replay / Pre-alarm video / Alarm Groups
Actions on Event	Record / Email / Snapshot* / Move to Preset / Relay Output* / Audio*
Alarm Schedules	✓
Alarm Reports	✓
Bookmarking	✓
Motion and Audio Search	✓
Connect to LPR powered by InnoWare‡	Receive events/alarms, bookmarks and data records
Connect to BriefCam‡	✓
Alarm and Bookmark Search	✓
Connect to CyberVigilant®†	✓
Support for CyberVigilant® in Camera	✓
Integrated Data	Manage millions of data records from LPR, EPOS and other integrations‡
Alarm Escalation	✓
Alarm Procedure Documents	HTML / Text / URL
System Alerts	✓
Audit Log	✓
Mobile Client	View live video and play back alarm video from ONVIF cameras, control PTZ cameras and manage alarms in web browser, Android or iOS app
Architecture	DNA (Distributed Network Architecture)
User Groups	✓
Access Permissions	Object and function based permissions
User Authentication	Windows authentication / Basic password
PC Monitors	4
Keyboard Support	IndigoVision / Pelco / American Dynamics / Panasonic
Multiple Languages	10+ languages including: English, Chinese, French, German, Spanish
Matrix Numbering	1 - 9,999,999
Network Connection Types	TCP / UDP Unicast / UDP Multicast / HTTP / HTTPS^
Device Discovery	✓
Supported Cameras and Encoders	IndigoVision Ultra, BX and GX camera ranges, 9000 Range Encoders, FrontLine, Camera Gateway and 3rd Party Cameras**
Industry Open Standards	ONVIF Profile S
License Mechanism	Software License Key, Federated License Server supported.
Control Center Supported OS	Windows 10 @ 64-bit v1607 and later, Windows 8.1 @ 64-bit
Windows NVR-AS Supported OS	Windows Server 2019®, Windows Server 2016®, Windows Server 2012 R2®, Windows Server 2012®, Windows 10® 64-bit
License Server Supported OS	Windows Server 2019®, Windows Server 2016®, Windows Server 2012 R2®, Windows Server 2012®, Windows 10® 64-bit. The License Server is also available as part of the IndigoVision NVR-AS 4000 Linux appliances.
Site Database Server Supported OS	Windows Server 2019, Windows Server 2016, Windows Server 2012 R2, Windows 10 @ 64-bit v1607 and later, Windows 8.1 64-bit

\* Features may vary based on capabilities of the camera or encoder model. Please refer to the relevant product datasheets for details. \*\* Please see our Control Center Supported 3rd Party Cameras list for full details.

† Purchase product to be connected separately. ^ HTTPS is only supported on new Control Center v16.1 or later installations.

# Control Center v17.1 IndigoPro®

Your security solution of choice.

Control Center IndigoPro® merges your choice of products, allowing a custom-tailored system design of cameras, encoders and NVRs. Performing reliably, IndigoPro® allows for quick response times and accurate incident management.

With IndigoVision's Distributed Network Architecture, IndigoPro® supports an unlimited number of client workstation installs and NVRs connected to the system; supporting continuous system growth whatever the future might bring.

Control Center is IndigoVision's effective, scalable and robust security management solution. It has an intuitive interface that provides easy system setup and efficient administration, saving you both time and money. Relentless testing and quality control 365 days a year ensure strong foundations for a robust, trusted security management offering.

IndigoPro® delivers:

-  Up to 80 Device Connections
-  Unlimited Client Workstations
-  Unlimited NVR Connections

Windows NVR-AS Supported OS	Windows Server 2019 ®, Windows Server 2016 ®, Windows Server 2012 R2 ®, Windows Server 2012 ®, Windows 10 ® 64-bit
License Server Supported OS	Windows Server 2019 ®, Windows Server 2016 ®, Windows Server 2012 R2 ®, Windows Server 2012 ®, Windows 10 ® 64-bit. The License Server is also available as part of the IndigoVision NVR-AS 4000 Linux appliances.
Site Database Server Supported OS	Windows Server 2019, Windows Server 2016, Windows Server 2012 R2, Windows 10 ® 64-bit v1607 and later, Windows 8.1 64-bit

\* Features may vary based on capabilities of the camera or encoder model. Please refer to the relevant product datasheets for details.

\*\* Please see our Control Center Supported 3rd Party Cameras list for full details. ^ HTTPS is only supported on new Control Center v16.1 or later installations.

# Control Center v17.1 IndigoLite®

Your security solution of choice.

Control Center IndigoLite® merges your choice of products, allowing a custom-tailored system design of cameras, encoders and NVRs. Performing reliably, IndigoLite® allows for quick response times and easy management of video recordings.

With IndigoVision's Distributed Network Architecture, IndigoLite® supports an unlimited number of client workstation installs and NVRs connected to the system; supporting continuous system growth whatever the future might bring.

Control Center is IndigoVision's effective, scalable and robust security management solution. It has an intuitive interface that provides easy system setup and efficient administration, saving you both time and money. Relentless testing and quality control 365 days a year ensure strong foundations for a robust, trusted security management offering.

IndigoLite® delivers:

-  Up to 40 Device Connections
-  Unlimited Client Workstations
-  Unlimited NVR Connections

# Control Center Mobile

Security management on the go

IndigoVision Control Center Mobile extends the surveillance capabilities of Control Center far beyond the control room to provide situational awareness on the move. Security personnel can monitor live video, control PTZ cameras and manage alarms from any location over mobile and wireless IP networks using a mobile phone, tablet or PC-based web browser. Control Center Mobile synchronizes to the Control Center site database so that it always reflects the current system configuration.

- Familiar touch and swipe gestures
- High quality real-time video
- Full PTZ control
- Receive, acknowledge and clear alarms from Control Center
- Play back recorded video from the time of an alarm
- Available for Apple iPhone, iPad and Android compatible smartphones and tablets
- PC-based web browsers also supported (Firefox and Google Chrome)
- Supports ONVIF cameras from IndigoVision or 3rd parties
- Cyber secure by design - all communication encrypted

## Control Center Mobile Specification

IndigoVision Control Center Mobile is the application that runs on your mobile device. It is available for free download from Apple App Store and Google Play.

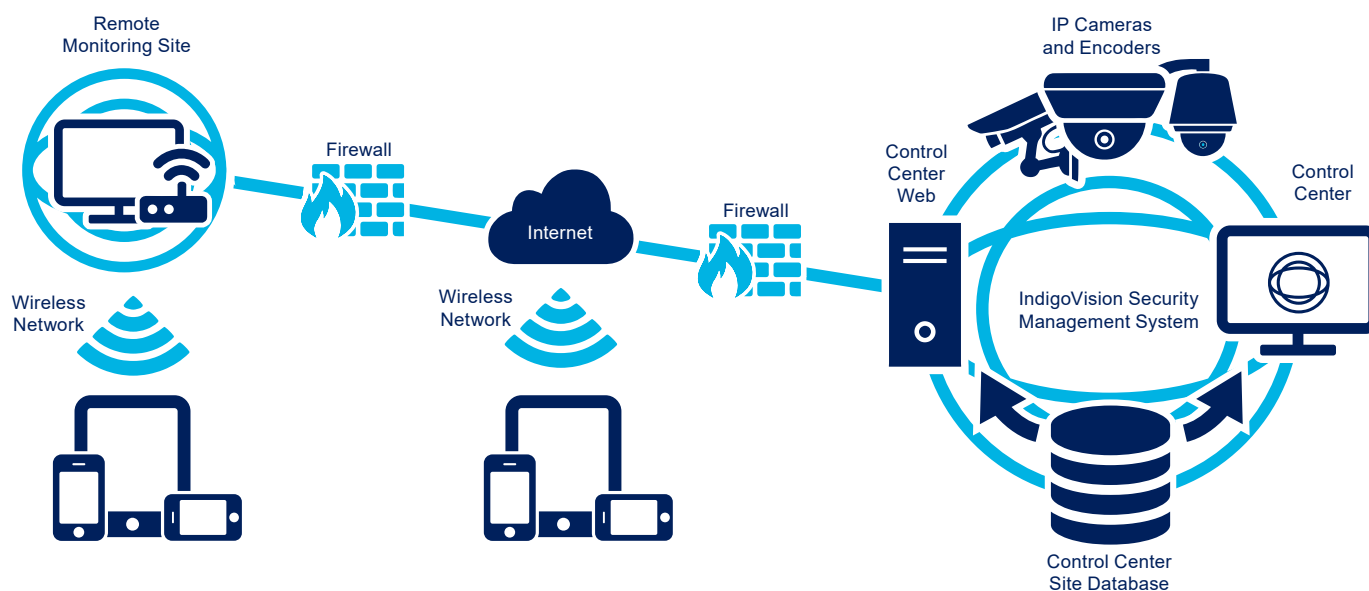

General Specification	Apple	Android
Mobile Devices	iPhone 5 or later, iPad 4 or later	Android smartphones and tablets
Mobile OS	iOS 10 or later	Android 6.0 or later
Supported Control Center versions	Control Center v17.0 and later	
Supported Cameras	IndigoVision Ultra range* BX Range, GX range Camera Gateway™ Video Stream Manager	
Supported Encoders	9000 Encoders running ONVIF firmware, BX Encoders, 3rd Party ONVIF Encoders	
Viewing Options	Single Pane, Multi-pane up to 2x2 layout	
PTZ Control	Pan, Tilt and Zoom using touch screen gestures Go to preset position	
Alarms	Receive, acknowledge and clear alarms from Control Center	
Alarm Video	Play back recorded video from 30 seconds before to 30 seconds after an alarm**	
Networks	Wi-Fi, 3G, 4G, IPv4, IPv6, Secure connection over HTTPS	
User Access	Supports full range of Control Center user access permissions	
Supported Live Video Codecs	H.264, H.263, MPEG-4, MJPEG	
Supported Alarm Video Codecs	H.264 (video) and AAC-LC (audio)	
Streaming Control	Where site database appropriately configured, Control Center Mobile will automatically use the lowest resolution configured for a given camera	

\* Excludes IndigoVision Ultra 5K. Ultra 2K range must be running v6 or later ONVIF compatible firmware.  
\*\*Supported camera resolutions dependent on mobile client display resolution.

## Control Center Web Specification

Control Center Web is the software that acts as a gateway between the Control Center System and your mobile device. Recommended hardware specifications for running Control Center Web are listed in the Control Center Performance Guide. Control Center Web OS: Windows Server 2012 R2, Windows Server 2016, Windows Server 2019, Windows 10.

## Control Center Mobile Diagram

# Agora

Ensuring your operators perform at their best every time

Agora from IndigoVision enhances the traditional end-to-end security solution by introducing a new layer of management capability and business intelligence that will guide operators in their response to security incidents. Agora ensures an accurate and prompt response to security incidents through the implementation of workflows and standard operating procedures that can be customised. The business intelligence provided through Agora's reporting functionality also enables security systems to be monitored for technical issues and the performance of security operators and service providers can be measured and audited.

## Key Features

- Video Management
- Alarm Systems
- Building Management
- Access Control
- Voice-Over-IP Audio

## Business Intelligence

Supervise your security systems and be notified of technical issues to ensure they remain fully operational.

## Accurate first responses

Ensure your team perform consistently and effectively by implementing workflows and Standard Operating Procedures (SOPs).

## Audit performance

Control budgets and achieve return on investment by auditing and measuring key performance indicators, such as the performance of security operators.

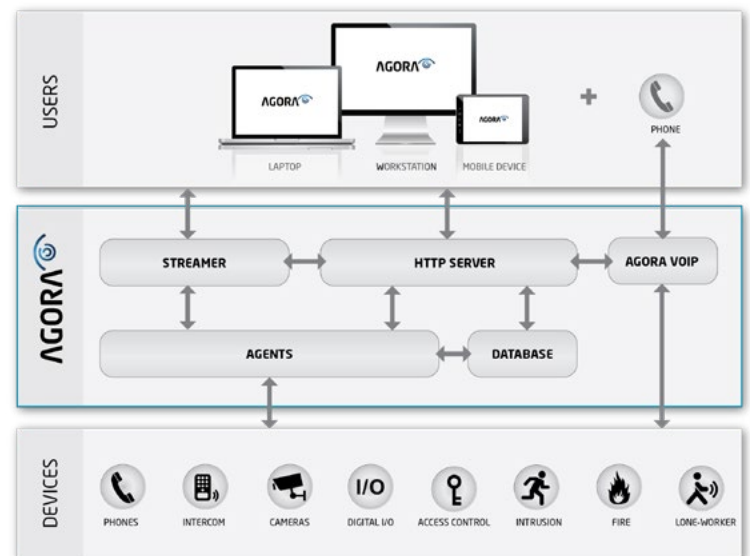

## Cost-effective

As a web-based platform, Agora is easy to install and operate and as it is system-agnostic, it can be integrated with your existing platforms.

## Product Codes

Agora	Product Codes
Agora Single Site Base License: 2 server licenses, 2 simultaneous users, from 1 to 5 sites	350001
Agora Multi-Site Base License: 2 server licenses, 2 simultaneous users, 6 or more sites	350002

See the IndigoVision Price List for a full list of Agora product codes.

# Technical Requirements

## Agora Client Minimum requirements

Type of User	CPU / RAM	Workstation Monitors	Operating System	Browser	Other requirements
Control Room Operator	CPU: Intel® Core™ i7; RAM: 8 GB	2 monitors with 1280x1024 pixels	Microsoft Windows, Linux or Mac OSX	Google Chrome Latest Version or Mozilla Firefox Latest Version	Installation of HTTPS certificate, to be provided by the End-User.
Control Room Supervisor	CPU: Intel® Core™ i5; RAM: 4 GB	One monitor with 1280x1024 pixels			If the Agora Joystick is used, a stand-alone Agora Joystick App needs to be installed as well (Microsoft Windows only).
System Configurator	CPU: Intel® Core™ i5; RAM: 4 GB	One monitor with 1280x1024 pixels			

## Agora Server Models

Description	Product Codes	CPU / RAM	Storage	Operating System
Mid-Range Server	980320	CPU: 1 x Intel® Xeon® 8-core RAM: 64 GB	2TB SATA HDD	Windows Server® 2019 Standard
High-End Server	980321	CPU: 2 x Intel® Xeon® 16-core RAM: 96 GB	2TB SATA HDD	Windows Server® 2019 Standard

## Virtualization

Agora can be installed in a virtual machine. The virtual machine operating system can be Windows Server 2012 R2 Standard Edition (with Service Pack 1), Windows Server 2016 Standard Edition or Windows Server 2019 Standard Edition. **Note:** Agora VoIP is always supplied as a Linux virtual machine.

## Firewall and Network Requirements

Product	Description	Source	Destination	Protocol / IP Port	Agora Versions
Agora Client / Server and Agora VoIP	HTTPS access to Agora Server	Agora Client	Agora Server	TCP/443	1.4-2.0
	RTMP	Agora Client	Agora Server	TCP/1935	1.4
	HTTP Streamer	Agora Client	Agora Server	TCP/9000	2.0
	Instance Manager	Agora Client	Agora Server	TCP/9050	2.0
	SMTP	Agora Server	SMTP Server	TCP/587, TCP/25	1.4-2.0
	Agora VoIP	Agora Server	Agora VoIP	VPN/LAN (no firewall preferred), TCP/5038	
	Agora VoIP	Agora VoIP	End-User PBX	VPN/LAN (no firewall preferred), UDP/5060	
	Agora VoIP	Agora VoIP	End-User PBX	VPN/LAN (no firewall preferred), RTP 10000-20000	
	Google Maps API	Agora Client	*.googleapis.com	TCP/80	1.4-2.0
	Agora Joystick	Agora Client	Agora Server	TCP/443	1.4-2.0
Agora Videowall	Decoder Control	Agora Server	Agora Decoder	TCP/443	2.0
	Decoder Streaming	Agora Decoder	RTSP Source	TCP/554	2.0
	RTSP Server	Agora Decoder	Agora Server	TCP/554	2.0
Agora Failover	Database Synchronization	Agora Server Primary	Agora Server Secondary	TCP/3306	1.4-2.0
	DFS Replication	Agora Server Primary	Agora Server Secondary	Active Directory services	1.4-2.0

NOTE: Each third-party integration will have specific firewall and network requirements not included in the table above.

ID: AGORA 20.2 DEC 20

# Agora Servers

Bringing control and reliability to your security system

Agora is a high-performance rack-mount server that comes with Agora Command & Control pre-installed. The server is designed to protect your valuable security management information, while tolerating the failure of one of the hard drives without data loss. Windows Server 2019 operating system and Agora software are both installed on a SSD drive for improved resilience to disk faults. With powerful Intel Xeon CPUs, the Agora Server is well-suited for high-workload incident management requiring transcoding of multiple high-quality video streams from different sources to serve multiple simultaneous browser clients in the context of a busy Command Center. The server comes with Next Business Day service level, plus the Keep Your Hard Drive service that allows end-users to keep failed hard drives, so that any sensitive data stored inside will be kept under your control.

## Key Features

- **Agora Command & Control pre-installed**
- **Two redundant power supply units**
- **Two SATA drives for RAID-1 data storage**
- **Powerful Intel Xeon CPUs**
- **Next Business Day service**
- **Keep Your Hard Drive service**

# Agora Decoder

High-performance video decoding appliance for low-latency video streaming

Agora Decoder is the building block for Agora-driven video-wall systems. The Agora Decoder has two video outputs, each offering configurable mosaic layouts from full-screen to 4x4 channels. Agora operators can select their desired video content and configure camera sequences. Agora Decoders can also be configured in video-alarm mode, so that the cameras linked to the latest incidents are automatically displayed in selected channels.

## Key Features

- Two video outputs to drive video-wall content to two monitors
- Configurable mosaic layouts from full-screen to 4x4
- Low-latency video streaming directly from ONVIF/ RSTP sources to avoid video transcoding in Agora Server
- Configuration modes: manual content, camera sequences and video-alarms (automated camera content triggered by incidents)
- Resilient high-performant appliance based in embedded Linux that boots from an internal USB drive and runs in RAM memory

## Product Codes

Agora	Product Codes
Agora Decoder	980110

# Agora Joystick

Specifically designed for critical security installations

The Agora Joystick provides advanced features such as a 3-axis Hall effect joystick, jog/shuttle dial, 27 user-defined pushbuttons and USB 2.0 interface for powerful control of video systems. The Agora Joystick is designed for resilience in demanding operational scenarios such as industry, utilities, banks, critical infrastructures, retail, logistics, transportation and education.

## Key Features

- Professional USB multifunction controller
- Non-contacting Hall effect technology
- Proportional three axis for PTZ control
- 27 tactile push buttons
- USB 2.0 HID compliant
- Jog / shuttle dial

## Product Codes

Agora	Product Code
Agora Joystick	110070

# Specifications

## Mechanical

Dimensions	Height: 110.74 mm (4.36") Width: 228.35 mm (8.99") Depth: 279.40 mm (11.0")
Weight	1.13 kg (2.9lbs.)
Operating Force	2.8 N (0.63 lbf)
Maximum Vertical Load	200 N (45 lbf)
Maximum Horizontal Load	200 N (45 lbf)
Joystick Mechanical Angle of Movement	36° X & Y axis, 80° Z axis
Jog/shuttle performance spring loaded ring travel	±40°
Knob rotation	360°
Expected Mechanical Life	3 million lifecycles
Lever Action (centering)	Spring

## Materials

Storage Temperature	-25 °C to +85 °C (-13 °F to +185 °F)
Operating Humidity	20% to 80% (non-condensing)
Sealing	None
Regulatory	EMC Immunity Level: CE compliant, EMC directive 2004/108/EC, FCC Part 15 Subpart B

ID: AGJS 21.0 MAR 21

# IndigoReports for Control Center

Enhancing security through faster insights

IndigoReports helps organizations identify security risks, comply with data protection regulations, and ensure the health and uptime of their Control Center systems.

## Key Features

### Audit Reports

- Turn audit logs into actionable intelligence to identify insider threats or misuse of security systems.
- Protect sensitive data by highlighting unauthorized activity and maintaining compliance with regulatory requirements.

### Health Reports

- Ensure system-wide monitoring coverage by reporting on devices which aren't monitored by device fault detectors.
- Keep device firmware up-to-date to improve security and performance.
- Maintain time synchronization.
- Gain system-wide visibility of camera and recording status.

### CyberVigilant Reports

- Indicators of Compromise (IoC) Dashboard quickly identifies activity which may be related to potential compromise or breach.
- Correlate CyberVigilant data with audit logs to defend against cyber attacks.

### Incident Reporting

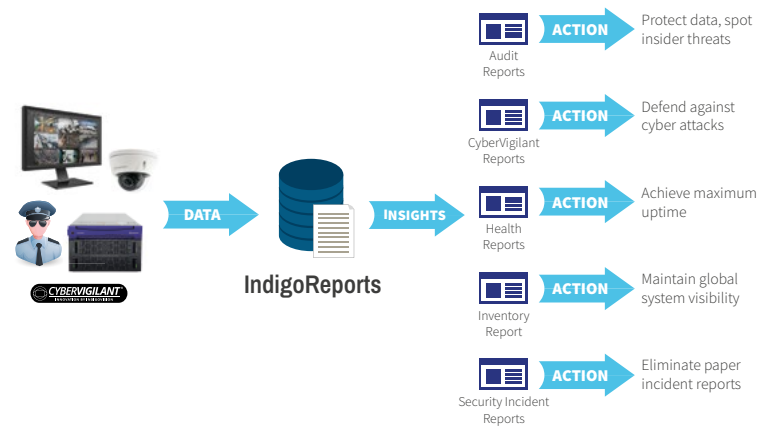

- Quickly document security incidents in detail.
- Associate Control Center users, cameras, alarm events, and audit log records with incident reports.
- Attach media including documents, audio, video, and more.

## Product Codes

IndigoReports	Product Codes
IndigoReports VMS Reporting module	340010
IndigoReports VMS Reporting module AND Incident Reporting module	340011

Regardless of size, a Control Center system comprised of a single site database only requires a single IndigoReports license.

IndigoReports is designed for use with Control Center v14.0 and later.

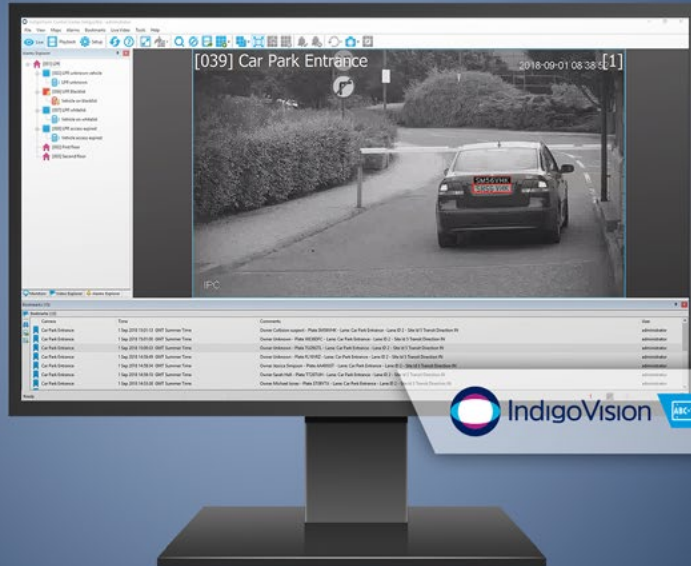

# VMS Reporting and Incident Reporting features

System Requirements	
<b>Processor</b>	64-bit Intel processors
<b>Memory</b>	16GB RAM minimum
<b>Storage</b>	300GB (or more when Incident Reporting is used with media attachments) Hardware RAID controller recommended but not required
<b>Supported Hardware</b>	IndigoReports is recommended to be installed on a dedicated server or virtual machine (VM) which meet these requirements. It is possible to install IndigoReports on Windows-based NVR-AS4000 appliances which meet the requirements, but recording performance may be affected.
<b>Supported Operating Systems</b>	Windows 10 64-bit, Windows Server 2012 R2 64-bit, Windows Server 2016, Windows Server 2019
<b>Supported Control Center Versions</b>	IndigoVision Control Center v14.0 or later required (English)
<b>Supported Web Browsers (for clients)</b>	Latest versions of Microsoft Internet Explorer, Google Chrome, Mozilla Firefox, and Apple Safari
<b>CyberVigilant Requirements</b>	The CyberVigilant report contains some elements designed specifically for CyberVigilant appliances, while some are designed specifically for cameras with CyberVigilant.  The IoC dashboard requires at least one CyberVigilant appliance AND one camera with CyberVigilant.  CyberVigilant Events by Camera require at least one camera with CyberVigilant.
<b>Camera Requirements</b>	All cameras supported by Control Center will be included in reporting, but the following report elements are designed for ONVIF Profile S conformant cameras and cannot support legacy cameras: <ul style="list-style-type: none"> <li>• Inventory: Firmware Versions by Model</li> <li>• Health: Cameras with NTP Server Configured</li> <li>• Some report features</li> </ul>
<b>E-mail Requirements</b>	An SMTP server is required for on-demand and scheduled report e-mails.
<b>Network Connectivity</b>	The server where IndigoReports is installed must have network connectivity to the Control Center site database and all devices (cameras, NVRs, Alarm Servers) in the Control Center system

# IndigoVision's LPR powered by InnoWare

Detect. Deter. Disrupt.

Integrated into IndigoVision Control Center, IndigoVision's LPR powered by InnoWare takes your system beyond traditional License Plate Recognition. Suitable for either parking-lot applications or free-flowing traffic, IndigoVision's LPR reads plates with a high level of accuracy and is supported in most countries. Plate reads are indexed to recorded video from your IP cameras, allowing operators to search for full or partial license plates and instantly retrieve the associated recorded footage.

Bounding boxes and text overlaid on the video highlight the location of the license plate and show the plate that has been automatically read. An optional web interface is also available which can be displayed in Control Center's browser window, allowing users to search results, edit the blacklist and whitelist, view snapshots and thumbnail images of license plates, and locate cameras on maps.

## Key Features

## Product Codes

LPR Software	Product Codes
Innovis LPR Single Lane Base License (Per Lane)	317430
InnoWeb LPR Management Suite	317432
InnoWeb LPR Management Per-Lane License	317433

# Specifications

General Specification	
IndigoVision System Software Requirements	Control Center v15.1 or later with IndigoUltra® or IndigoPro® license
Event and Alarm Integration Capability	Unidirectional flow of events and alarms from the LPR system into Control Center: Vehicle in blacklist, vehicle in whitelist, unknown vehicle, whitelist expired for vehicle Bookmarks automatically generated in Control Center. Integrated Data Records optionally generated in Control Center.*
Supported Camera Frame Rates	5 fps – 25 fps depending on application (stop / go or free flowing traffic)
Supported Resolutions	Size of a single Region of Interest must not exceed 4 Megapixel
Maximum Vehicle Speed	200km/h^
Database Support	Microsoft SQL Server 2015 or later (not required for single-site installations)

PC Specifications	
CPU	CPU Benchmark performance score of 2500 points per lane
RAM	1 GB per lane
Minimum HDD Space	500 GB
Supported Operating Systems	Windows Server 2016®, Windows Server 2012 R2®, Windows Server 2012®, Windows Server 2008 R2®, Windows 10® 64-bit, Windows 8.1® 64-bit

\* Integrated Data Records requires IndigoUltra® license. ^ Dependent on camera capabilities.

# CyberVigilant®

Intelligent Intrusion Detection Made Easy.

Part of IndigoVision’s management hardware offering, CyberVigilant® protects your Control Center environment by detecting threats as they occur. Alarms are sent directly into Control Center enabling operators to respond immediately to a cyber-attack.

CyberVigilant® connects to your managed edge network switch to monitor connected cameras, encoders and NVRs using Switched Port Analyzer (SPAN) functionality, sometimes called port mirroring or port monitoring. Support for tagged VLANs is included, and CyberVigilant® can also log alarms using Syslog, allowing integration with Security Information and Event Management (SIEM) systems.

## Specifications

General Specifications	16 Channel	24 Channel
Performance (Ports Monitored)	16 independent	24 independent
Performance (Switch Uplink Throughput)	10Gbps egress, 30Mbps ingress	40Gbps egress, 45Mbps ingress
Alarms	Alarm management directly within Control Center	
Operating System	Embedded Linux	
Processor	Intel® Celeron® N3060 1.6-2.48Ghz 2MB Cache	
Memory	1GB DDR3L 1600MHz	2GB DDR3L 1600MHz
O/S Hard Disk	60GB mSATA	
USB	4 x USB 3.0 (Front); 1 x USB 2.0 (Front); for configuration only	
Network Interface	Dual Port 100/1000 BaseT RJ-45 Connections (management port and monitoring port)	
Network Security	SSH, HTTPS, Embedded Linux Firewall	
VLAN support	Optional filtering by 802.1Q tagged VLAN ID	
Remote Logging	Syslog UDP/514	
Network Switch Requirements	Switched Port Analyzer (SPAN), port mirroring or port monitoring configured to monitor ingress traffic only	
Video Interface	HDMI (v1.4b) for configuration only	
Dimensions/Weight	107mm (d) x 190.5mm (w) x 48.3mm (h) and 1.4kg / 4.21in (d) x 7.5in (w) x 1.90in (h) and 3.09lbs	
Electrical	Internal 50W PSU, 100-240VAC, 50/60 Hz, Auto Switching	
Regulatory	CE, FCC, TUV	
Housing	Fanless aluminium extrusion with aluminium front / rear cover with Kensington Lock security	
Operating Temperature	0°C to 35°C (32°F to 95°F)	
Supplied Accessories	VESA/Wall Mountable Bracket, mains power cord	
IndigoVision Software Requirements	Control Center v15.2 or later	
IndigoVision License Requirements	Control Center License with CyberVigilant® feature	

## IndigoVision's CyberVigilant® Threat Detection and Supported Actions

Examples of Threat Detection
Unauthorized configuration access attempts
Network reconnaissance
Device access from unauthorised clients
Shell access
Use of unauthorised DNS, NTP and SMTP servers
Denial Of Service (DOS) attacks

Examples of Supported Actions
PTZ Camera moves to Preset
Video from one or more cameras displayed on operator's PC
Notification email sent
Recording of any camera started
CCTV site map pops up with event source highlighted
Two way audio connection established so operator can listen and talk to the source of the event
Relay triggered action initiated e.g. door opens or lights turn on

# Integra® Software

Control Center Performance. Intelligently Delivered.

IndigoVision Integra® packs a lot of power into a small package. Coming with Control Center, NVR-AS, License Server, NTP client/server, VPN and Control Center Web/Mobile Server pre-installed, Integra® is a fully-featured, self-contained security management solution with an intuitive and familiar interface.

Integra® (8, 16, 24) are pre-licensed with device licenses to match the number of PoE/PoE+ ports. No additional licenses are required to View or Record 8, 16 or 24 video channels on each Integra®. There is no mandatory Software Upgrade Plan (SUP) for Integra®. An “Integra® Software Upgrade (per device connection)” fee applies for customers wishing to upgrade to the next major software release.

Integra® can be used as a standalone device or connected together in a centrally managed system. An Integra® View Workstation is required to view more than one Integra®. As a fully-featured security management solution in its own right, Integra® is independent of IndigoLite®, IndigoPro® and IndigoUltra® systems. To add more cameras to an Integra® system, additional Integra® 8, 16 or 24 hardware is required.

# Specifications

General Specifications	
Number of Device Connections Included	8 / 16 / 24 to match number of PoE/PoE+ ports on the Integra®
Number of Client Workstations	Integra® combines a fully functional Control Center workstation with a PoE+ switch. An unlimited number of additional workstations can be connected if required.

General Specifications	
Live Viewing Performance	34 4SIF streams at 30fps, 5 HD streams at 30fps, 2 4MP streams at 30fps, 1 4K streams at 30fps
Playback Viewing Performance	25 4SIF streams at 30fps, 6 HD streams at 30fps, 3 4MP streams at 30fps, 1 4K streams at 30fps For complete live viewing performance specification please refer to the Control Center v15.0 Performance Reference Guide, available on the IndigoVision Partner Website
Operating System	Windows 10 64bit (IoT Enterprise 2019)
Processor	Intel® Core i5-9500
Memory	8GB DDR4 (2666MHz)
O/S Hard Disk	256GB SSD (PCIe NVMe Class 40)
Network Interface	100/1000 BaseT RJ-45
Video Interface	2x DisplayPort, Integrated Intel UHD Graphics supporting dual monitor output
Audio Interface	Mic In, Headphone, Line Out
Form Factor	Compact Micro Form Factor Chassis
Dimensions/Weight	178mm (d) x 36mm (w) x 182mm (h) and 1.18Kg / 7.0in (d) x 1.4in (w) x 7.2in (h) and 2.6lb
Electrical	130W Adaptor (100 to 240 VAC, 50/60 Hz, auto switching). Minimum Efficiency > 87%, ENERGY STAR compliant
Regulatory	EN 60950-1, IEC 60950-1, EN 55032:2012/CISPR 32:2012, EN 55032:2015/CISPR 32:2015, EN 55024:2010 +A1:2015/CISPR 24:2010 +A1:2015, EN 61000-3-2:2014/IEC 61000-3-2:2014 (Class D), EN 61000-3-3:2013/IEC 61000-3-3:2013, DRAFT EN 301 489-1 V2.2.0, DRAFT EN 301 489-17 V3.2.0
Housing	Mild Steel Chassis and Polycarbonate Fascia
Temperature	Operating: 10°C to 35°C (50°F to 95°F) Storage: -40°C to 65°C (-40°F to 149°F)
Humidity	20% to 80% relative humidity (non-condensing)
Vibration	Operating: 5 Hz to 350 Hz at 0.0002 G <sup>2</sup> /Hz Storage: 5 Hz to 500 Hz at 0.001 to 0.01 G <sup>2</sup> /Hz
Shock	Operating: 40 G +/- 5% with pulse duration of 2 msec +/- 10% (equivalent to 51 cm/sec) Storage: 105 G +/- 5% with pulse duration of 2 msec +/- 10% (equivalent to 127 cm/sec)
Altitude	Operating: -50ft to 10,000 ft Storage: -50ft to 35,000ft
Supplied Accessories	USB Mouse, Regional Power Cord
Software Requirements	Control Center v16.0 (pre-installed)

## Workstation Monitor

Complete clarity and versatility

IndigoVision's 24" Workstation Monitor is designed for pixel-perfect clarity and purpose-built for workspace versatility with full tilt, height, angle, and even complete rotation for portrait setup. Stunning visuals guaranteed and perfected to work with IndigoVision's Mini Client, Platinum Client, and Hybrid NVR Workstations.

-  Purposefully designed for comfort and convenience
-  Enjoy full adjustability to pivot, tilt, height adjustment and swivel to suit your needs
-  Excellent picture quality and consistent color representation
-  Maximise your security potential with IndigoVision's Mini Client, Platinum Client, and Hybrid NVR Workstations

## Specification

General Specification	
Display Type	LED-backlit LCD monitor / TFT active matrix 24"
Energy Class	Class A+
Built-in Devices	USB 3.0 hub
Aspect Ratio	Widescreen - 16:9
Native Resolution	Full HD (1080p) 1920 x 1080 at 60 Hz
Pixel Pitch	0.275 mm
Brightness	250 cd/m <sup>2</sup>
Contrast Ratio	1000:01:00
Colour Support	16.7 million colours
Response Time	6 ms (grey-to-grey)
Horizontal Viewing Angle	178°
Vertical Viewing Angle	178°
Screen Coating	Anti-glare, 3H Hard Coating
Backlight Technology	LED backlight
Features	Ultra wide viewing angle, Premium Panel Guarantee, Dell Easy Arrange, Dell ComfortView
Dimensions (WxDxH) and Weight	549.8 mm (w) x 362.1 mm (h) x 180.0 mm (d) w/ stand compressed or 492.1 mm (h) w/ stand extended, 5.89 kg / 21.65" (w) x 14.26" (h) x 7.09" (d) w/ stand compressed or 19.37" (h) w/ stand extended, 12.98lbs
Display Position Adjustments	Height, pivot (rotation), swivel, tilt
Connectivity	HDMI, DisplayPort, VGA, 2 x USB 3.0, 2 x USB 2.0
Cables Included	1 x VGA cable, 1 x DisplayPort cable, 1 x SuperSpeed USB cable
Electrical	AC 120/230 V (50/60 Hz)
Compliant Standards	TCO Displays
ENERGY STAR Certified	Yes

## Surveillance Keyboard

Who needs a mouse?

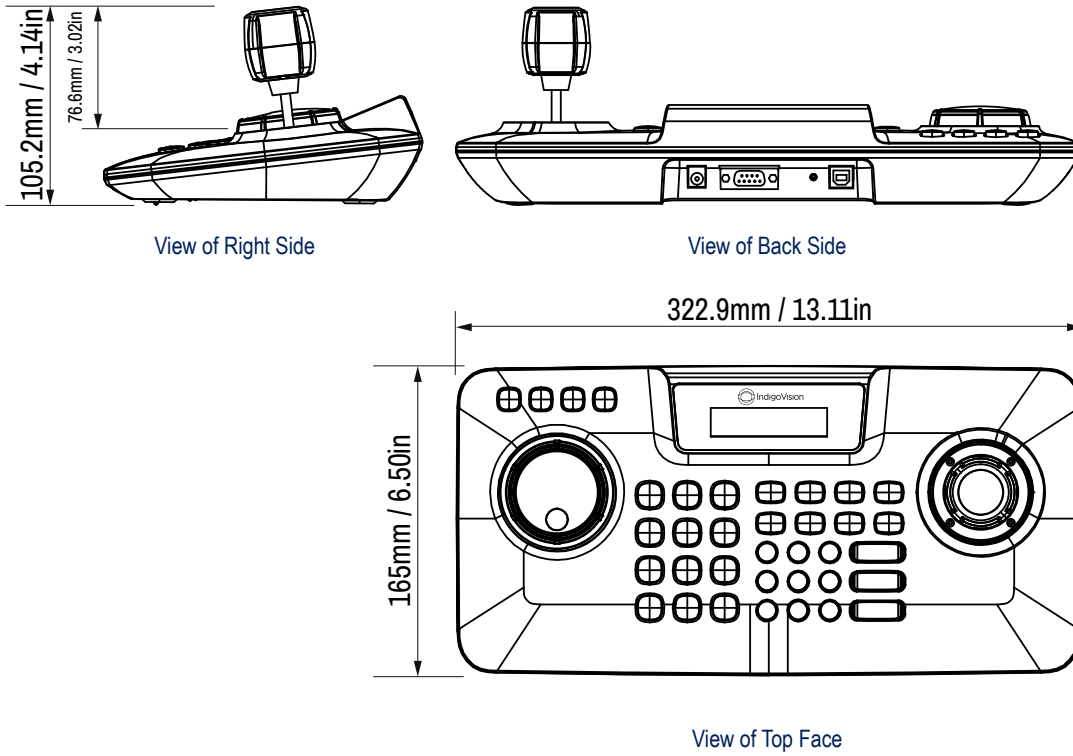

IndigoVision's Surveillance Keyboard is used to access Control Center's Virtual Matrix and IP Video Wall. The Control Center Virtual Matrix allows the Surveillance Keyboard to control IndigoVision and most third party PTZ cameras including Pelco and Panasonic.

-  Seamless control of live and recorded video
-  Desktop keyboard with 3-axis joystick (pan/tilt/zoom)
-  Full variable PTZ control of speed domes
-  Full control of Control Center virtual matrix
-  Multi-function keys
-  LCD graphic display

## Specification

General Specification	
Control	Proportional 3 axis joystick plus jog / shuttle dial
Numeric Keypad	12 Keys
Multi-function Keypad	24 Keys
LCD Graphic Display	16x2 LCD Screen
LCD Backlit	Yes
Keyboard Power Supply	5v DC USB / 12V DC Power supply (included)
Power Consumption	1.1W
Operating Temperature	0°C to 40°C
Dimensions/Weight	165.0mm (d) x 332.9mm (w) x 105.2mm (h) and 800g / 6.50" (d) x 13.11" (w) x 4.14" (h) and 1.76lb
RS232 connections	1 Serial Line (COM) Female DB9 Connector (Included)
Regulatory	CE, FCC

# IP Video Wall

Build your own control rooms, cost effectively and scalably

Using IndigoVision's IP Video Wall software, a video wall can be constructed using slave workstations, each of which displays up to 100 panes of video across four monitors. The video wall is controlled over an IP network by an unlimited number of master workstations. Large video walls are constructed using as many Slaves as necessary.

The video wall is managed from Master Control Center workstations through a standard CCTV keyboard or Control Center. Monitors within the video wall can be used to display a variety of information; Video, Salvos, Maps, Alarm Video.

- Construct video walls using any PC monitors e.g. CRT, Plasma, LCD, HD TV
- Controlled using standard CCTV keyboards or Control Center
- Supports SD, HD and higher resolutions up to 20MP
- Display video, maps and alarm video
- Dynamically change the pane layout of a monitor

## Product Code

IP Video Wall	Product Code
IP Video Wall Slave License	317420

# Specification

General Specification	
Master PCs	Unlimited
Slave PCs	Up to 98 individually licensed PCs
Maximum Monitors per Slave	4
Maximum Panes per Monitor	25
Maximum Total Video Wall Panes	9800
Supported CCTV Keyboards	IndigoVision Surveillance Keyboard, Pelco KBD300A, American Dynamics ADCC1100, American Dynamics AD2088, Panasonic WV-CU650
Supported Actions	From keyboard: Select live camera into pane, Stop video on pane, Pan/Tilt/Zoom/Focus/Iris/Preset control, Sequence control (start/stop/pause/next/previous), Salvo control (start/stop), Guard Tour control (start/stop), Change pane layout. From Control Center: Push live video currently displayed in Control Center to video wall, including pane layout.
Supported Operating Systems	Windows 8.1@ 64-bit, Windows 10@ 64-bit
Licensing mechanism	Software license
Supported Network	Windows Domain

## IP Video Wall Diagram

# AI

## Focus on the moments that matter and react more effectively

You could be managing thousands of the highest quality cameras in the world but this won't improve safety and security if you can't find the evidence you need, when you need it.

Our Artificial Intelligence (AI) products allow you to zero in on the seconds of relevant footage that are required to accelerate your investigations by improving operational efficiency and maximizing your operators' resources. AI carries out the mundane tasks for your team, such as monitoring blacklists, alerting operators only when a critical action needs to be taken. AI sends alerts for the moments your team can't monitor in real time: from the precise moment an object was left abandoned in a waiting room, or the last known location and direction of travel of a suspect. Condensing hours of footage down into the relevant moments allows operators to resolve investigations faster, based on identifying factors such as gender, clothing, colours and object type.

The benefits of AI don't have to end with your security investigations: the latest computer vision and deep learning technology lets you analyze your current processes and enact operational efficiencies. Use data based on customer dwell times and common paths within retail outlets to best position your products for maximum sales. Recognize busy periods in your Casino through the use of heat maps, so you can open tables in expectation of higher demand and efficiently organize rotas to maximize the use of your staff resources.

Adapting to the new normal, instilling confidence and promoting healthy and safe environments for your customers and employees could not be easier with IndigoKiosk AI. Automate occupancy management to ensure the optimum levels for social distancing and face mask detection.

# Artificial Intelligence Index

## **Artificial Intelligence powered by BriefCam** **42**

- From 50 Cameras
- Filter by multiple object classes
- Heat-maps for activity or inactivity
- Identify common paths
- Facial recognition
- Near-live alerts in BriefCam user interface
- Business intelligence

## **Video Processing Server** **44**

- Designed to process video for the IndigoVision Artificial Intelligence powered by BriefCam
- Supports up to ten simultaneous BriefCam RapidReview and Insights users
- Process up to 500 hours of video per day

## **IndigoKiosk AI** **52**

- Automatically detects if a person is wearing a face mask
- Automates people counting to ensure social distancing
- Artificial intelligence removes the need to deploy staff
- Displays occupancy levels for greater clarity

# Artificial Intelligence powered by BriefCam

BriefCam's powerful video analytics software uses the latest computer vision and deep learning technology to deliver innovative, market-leading security and operational efficiencies. Integrating with IndigoVision's security management solution, BriefCam extracts the value from recorded video.

The Review module enables super-fast video review and search capability, dramatically shortening your time-to-target. Condense hours of video from NVRs in your IndigoVision installation into just a few minutes, presenting only the items of interest to the operator. Produce exportable reports of your results, fully annotated. Search across multiple video sources for people and vehicles of interest and identify similar looking objects, including through the use of face recognition.

The Research module available in BriefCam Insights and Protect software provides comprehensive Business Intelligence, allowing you to make informed decisions to optimize your business operations. Visualize key performance indicators and perform trend analysis based on the classification of extracted video objects. Quantify the number of objects entering or dwelling within user-defined areas, travelling or dwelling along user-defined paths, or travelling between areas. Use out-of-the-box dashboards or customize them to your specific use cases. Drill down to reveal further quantitative video insights, and schedule dashboard generation on a daily, weekly or monthly basis if desired.

The Respond module, also available in BriefCam Insights and Protect, enables alerts to be triggered in the BriefCam software and in Control Center in near real-time. Alert triggers include face recognition, objects in area, and class categories such as person, two-wheeled and other vehicles.

## Specifications

Supported Resolutions	Minimum CIF, Maximum 4K
Supported Frame Rates	8-30 frames per second
Supported Camera Types	Fixed cameras as supported in IndigoVision Control Center. Ultra 5K, Fisheye and body-worn cameras not supported.
Face Recognition	Minimum Face Size: 24x24 pixels
Event and Alarm Integration Capability	Unidirectional flow of events from BriefCam Respond module into Control Center. Events from ONVIF cameras only.
IndigoVision Software Requirements	Control Center v15.0 or later, with IndigoUltra® license
Supported Operating Systems	Windows Server 2019, Windows Server 2016, Windows 10 Pro
Supported Browsers	Google Chrome Desktop , Firefox

## Object Filters

Filter by camera, time range, object size, speed, direction, dwell time. Additionally, filter by:

Class	People: Man, Woman, Child Two-Wheeled Vehicle: Bicycle, Motorcycle Other Vehicles: Car, Pickup, Van, Truck, Bus, Train, Airplane, Boat Animals: Various Illumination Changes: Lights On, Lights Off
Attribute	Bags: Backpack, Hand Held, No Bag Hats: Hat, No Hat Upper Wear: Long Sleeves, Short Sleeves, Colors Lower Wear: Long, Short, Colors
Color	Any combination of Brown, Red, Orange, Yellow, Green, Cyan, Blue, Purple, Pink, White, Gray, and Black
Area	Objects included or excluded within one or more user-defined polygon areas
Path	Objects travelling along one or more user-defined paths
Heat Maps	Activity, Dwell, Path, Background Changes
Face Recognition	View all faces or search by face match, external image or watchlist
Appearance Similarity	Identify similar looking people or vehicles across one or more videos

## Hardware Requirements

BriefCam uses per-camera licensing, and hardware sizing is calculated according to peak usage requirements. The necessary computing power is dependent on concurrent camera processing volumes and the number of hours of video footage to be processed per hour.

In all cases, please contact your IndigoVision Sales Engineer for assistance with specifying the hardware required to run BriefCam for your specific requirements.

IndigoVision

# Video Processing Server

Artificial Intelligence powered by BriefCam

Designed to process video for the IndigoVision Artificial Intelligence powered by BriefCam, the IndigoVision Video Processing Server can support up to ten simultaneous BriefCam RapidReview, Insights and Protect users and process up to 500 hours of video per day. BriefCam RapidReview, Insights and Protect software uses advanced computer vision and deep learning technology to intelligently condense hours of recorded video footage into just a few minutes, presenting just the items of interest to the operator.

# IndigoKiosk AI

Automate Occupancy Management and Face Mask Detection  
Easy Installation. AI Analytics powered Alarm Integration for actionable intelligence.

IndigoKiosk AI automates the process of counting people to help manage occupancy control and ensure social distancing. Automatically detects people not wearing a face mask and advises them to wear one. Analytic alarm integration into IndigoVision's Control Center and Agora Command and Control platforms provides instant actionable intelligence.

# CAPTURE

## Get the image detail you need to inform incident response in any environment

Security investigations can't even begin if you are unable to extract quality images from your cameras. At IndigoVision, we provide a wide array of cameras in a range of form factors, so that you can choose the right camera for specific areas of your site to give you complete situational awareness. With tightly integrated in-built analytics, you'll have access to data to better inform your security response.

Whether you need a camera which is capable of withstanding attempts at destruction - either intentional or accidental - and harsh weather conditions, or precision image detail for a high-security entrance on your site, we've got you covered. Your team is always put in the best place to react swiftly and stop events from escalating using analytics filters, including motion detection and perimeter monitoring, which allow operators to respond immediately to incidents in any environment.

Our cameras come in a variety of ranges: GX, BX, UX, PTZ and SP, meaning that there is a camera for every budget and site. If you are looking to cost-effectively migrate legacy analog cameras into your IP security system, you can do so easily with our Channel Encoders, which convert your cameras' analog signal into digital, so your system will treat them like any IP camera. Ensure high-risk areas on your site are monitored 24/7 with our fixed cameras, which provide you with a detailed camera view without interruptions. Use our powerful Pan-Tilt-Zoom (PTZ) cameras to auto-track suspects from long-range, night or day.

IndigoVision's high-definition cameras continuously monitor and analyze their environment, so you will never miss a critical incident.

## UX CAMERA RANGE

### UX Camera Range **NEW FOR 2021** 58

- 2MP - 8MP(4K) resolution
- Analytics with motion detection
- Audio capabilities
- IR, WRD and Lowlight technology
- Relay I/O connections
- ONVIF and NDAA compliant

### UX3625 HD Ultra X Bullet Camera 91

- 1080p resolution mode
- Wide Dynamic Range (WDR)
- Full-duplex audio
- CyberVigilant® Technology
- ONVIF and NDAA conformant

### UX3420 HD Ultra X Minidome Camera 93

- 1080p resolution mode
- Wide Dynamic Range (WDR)
- Full-duplex audio
- CyberVigilant® Technology
- ONVIF and NDAA conformant

### U2615 HD Ultra Bullet Camera 97

- 1080p resolution mode
- Wide Dynamic Range (WDR)
- Full-duplex audio
- CyberVigilant® Technology
- ONVIF conformant

### U2410 HD Ultra Minidome Camera 99

- 1080p resolution mode
- Wide Dynamic Range (WDR)
- Full-duplex audio
- CyberVigilant® Technology
- ONVIF conformant

## BX CAMERA RANGE

### BX Camera Range **NEW FOR 2021** 67

- 2MP - 5MP resolution
- Analytics with motion detection
- Audio capabilities
- IR, WRD and Lowlight technology
- Relay I/O connections
- ONVIF and NDAA compliant

### BX630 HD Bullet Camera 103

- 1080p resolution mode
- Full-duplex audio
- Power over Ethernet (PoE)
- CyberVigilant® Technology
- ONVIF conformant

### BX620 4MP/4K Bullet Camera 105

- 4K and 4MP resolution modes
- Full-duplex audio
- Power over Ethernet (PoE)
- CyberVigilant® Technology
- ONVIF conformant

### BX630 HD Fixed Camera 107

- 1080p resolution mode
- Full-duplex audio
- Power over Ethernet (PoE)
- CyberVigilant® Technology
- ONVIF conformant

### BX620 4MP/4K Fixed Cameras 109

- 4K and 4MP resolution
- Full-duplex audio
- Power over Ethernet (PoE)
- CyberVigilant® Technology
- ONVIF conformant

### BX420 HD/4MP/4K Minidome Camera 111

- 1080p, 4MP and 4K resolution modes
- Full-duplex audio
- Power over Ethernet (PoE)
- CyberVigilant® Technology
- ONVIF conformant

## MOUNT & ACCESSORY MATRICES

### UX Camera Mount & Accessory Matrix 132

### GX/BX Camera Mount & Accessory Matrix 135

### PTZ Camera Mount & Accessory Matrix 138

### SP Multisensor Camera Mount & Accessory Matrix 146

### SP Thermal Camera Mount & Accessory Matrix 149

### Bullet Camera Mount & Accessory Matrix 152

### Dome Camera Mount & Accessory Matrix 155

### Speciality Camera Mount & Accessory Matrix 169

### 380°/180° Camera Mount & Accessory Matrix 164

# Capture Index

## GX CAMERA RANGE

### **GX Outdoor Dome Camera NEW FOR 2021** 99

- 2MP - 5MP resolution
- Analytics with motion detection
- CyberVigilant Technology
- IR, WRD and Lowlight technology
- ONVIF and NDAA compliant

### **GX620 HD Bullet Camera** 119

- 1080p resolution
- Power over Ethernet (PoE)
- ONVIF conformant

### **GX420 HD Pan/Tilt Minidome Camera** 121

- 1080p resolution
- Power over Ethernet (PoE)
- ONVIF conformant

## PTZ CAMERA RANGE

### **IR PTZ Cameras NEW FOR 2021** 77

- 2MP - 5MP resolution
- 360° coverage with Pan, Tilt and Zoom controls
- IR, WRD and Lowlight technology
- CyberVigilant® Technology
- Relay I/O connections
- ONVIF and NDAA compliant

### **UX3520 HD Ultra X PTZ Dome Camera** 95

- 1080p resolution mode
- 30x optical zoom and 12x digital zoom
- Ultra-low latency
- CyberVigilant® Technology
- NDAA and ONVIF conformant

### **U2510 HD Ultra PTZ Dome Camera** 101

- 1080p resolution mode
- 30x optical zoom and 12x digital zoom
- Ultra-low latency
- CyberVigilant® Technology
- ONVIF conformant

### **BX520 HD/4MP PTZ Dome Cameras** 113

- HD and 4MP resolution
- 30x optical zoom and 10x digital
- ONVIF conformant

## ENCODER

### **BX130 8/16 Channel Encoder** 173

- 8 or 16 analog inputs per device
- Up to 1080p resolution
- ONVIF conformant

## SP CAMERA RANGE

### **SP Multisensor Camera NEW FOR 2021** 81

- 20MP Effective resolution (4 x 5MP)
- 4 individually configurable camera sensors
- Audio capabilities
- IR, WRD and Lowlight technology
- Relay I/O connections
- ONVIF and NDAA compliant

### **SP Thermal Cameras NEW FOR 2021** 87

- Turn heat into visible light
- Classify temperatures from -40 °C to 225 °C (-40 °F to 437 °F)
- Audio capabilities
- Relay I/O connections
- ONVIF and NDAA compliant

### **BX720 6MP/12MP Fisheye Camera** 115

- 6MP - 12MP resolution
- Up to 30 fps at 6MP
- Edge Dewarping
- IP67/IK10

### **BX720 8MP Panoramic Dome Camera** 117

- 8MP resolution
- Up to 25 fps
- 180-degree panoramic view
- IP67/IK10

### **HD Interceptor PTZ Camera** 123

- 1080p resolution
- Integrated white and infrared lighting
- IP68/IK10
- ONVIF conformant
- -40°C to 60°C

### **Thermal Temperature Screening Solution** 125

- Measures a person's skin temperature to mitigate the spread of COVID-19
- Give staff, visitors and contractors peace of mind
- No fuss deployment with everything you need to get up and running

### **Thermal Bullet Camera** 128

- 720p resolution
- Up to 30fps
- Temperature measurement
- CyberVigilant® Technology

### **XF & XP HD ATEX Cameras** 130

- 1080p resolution
- ATEX, IECEx and INMETRO
- IP67
- ONVIF conformant

# UX Camera Range

Capture every detail with ultra-high resolution

With best in class performance, the IndigoVision UX Camera range supports multiple resolutions and delivers enhanced video streams in all lighting conditions. You also get maximum reliability with IndigoVision's Distributed Network Architecture, which removes the requirement for a central server, ensuring you never lose access to live video and benefit from minimal latency. IndigoVision's SmartCodec technology gives highly optimised H.265 compression significantly reducing storage costs.

## Key Features & Benefits

### MOTION DETECTION

Operators get alerted immediately when motion is detected thanks to our built-in analytics.

### ONVIF® COMPLIANT

Built on an open platform to allow integration with other security solutions, so you can expand your existing security system.

### H.265 WITH SMARTCODEC TECHNOLOGY

Reduce costs by maximizing bandwidth utilization and storage consumption without compromising image quality.

### EXPANDABLE STORAGE

Use our slot for either SD or MicroSD memory card and get video recordings even during network interruptions.

### IP AND IK RATED

Trust the robustness and reliability of your system with IP66/7 weather rating and IK10 impact rating for vandal resistance.

### 5 YEAR WARRANTY

Gain peace of mind with products backed by a 5-year, industry-leading warranty.

### LOW LIGHT TECHNOLOGY

Deliver safety and capture unexceptionably detailed footage even in low-light settings.

### TRUE WIDE DYNAMIC RANGE

Capture details in scenes with both very bright and dark areas, so you can detect suspicious activity in all lighting conditions.

### RELAY I/O CONNECTIONS FOR FAST RESPONSE

Configure input actions (such as alarms) that trigger an external relay to perform an action (e.g., turn lights on).

### AUDIO CAPABILITIES

Available ports for external audio including sirens, microphones and/or loudspeakers for audio talk-down situations.

### ADAPTIVE INFRARED (IR) LED ILLUMINATION

Automatically provides clear and evidential video even in pitch dark condition for a distance of up to 350 m (1148 ft).

### NDAA COMPLIANT

Approach US government with confidence, knowing our cameras comply with the National Defense Authorization Act.

# Specifications

Image Performance	2.0 MP	4.0 MP	5.0 MP	8.0 MP (4K ULTRA HD)

Max Aperture	F1.3	F1.8	F1.6	F1.6	
Control	P-Iris, Remote Focus and Zoom				

<sup>1</sup> IR illumination power may be reduced at higher operating temperatures.

Image Control	
Image Compression Method	H.264 SmartCodec, H.265 SmartCodec, Motion JPEG
Streaming	Multi-stream H.264, Multi-stream H.265, Motion JPEG
Motion Detection	Pixel motion: Selectable sensitivity and threshold. Classified object detection
Tamper Detection	Yes
Electronic Shutter Control	Automatic, Manual (1/7 to 1/8196 sec)
Iris Control	Automatic, Open, Closed
Day/Night Control	Automatic, Manual
Flicker Control	60 Hz, 50 Hz
White Balance	Automatic, Manual
Backlight Compensation	Adjustable
Privacy Zones	Up to 64 zones

# Specifications

Auxiliary I/O	
Audio Compression Method	G.711 PCM 8 kHz
Audio Input/Output	Line level input and output
External I/O Terminals	Alarm In, Alarm Out
RS-485 Terminal	Yes, Box camera only**

# BX Camera Range

Supreme connectivity and flexibility

With IndigoVision's BX range you get supreme connectivity and flexibility combined with great video and audio. Available in a variety of resolutions and form factors, you also get maximum reliability with IndigoVision's Distributed Network Architecture, which removes the requirement for a central server, ensuring you never lose access to live video and benefit from minimal latency. The BX Cameras deliver a different dimension of safety when combined with IndigoVision's Control Center.

## Key Features & Benefits

### MOTION DETECTION

Operators get alerted immediately when motion is detected thanks to our built-in analytics.

### ONVIF® COMPLIANT

Built on an open platform to allow integration with other security solutions, so you can expand your existing security system.

### H.265 WITH SMARTCODEC TECHNOLOGY

Reduce costs by maximizing bandwidth utilization and storage consumption without compromising image quality.

### EXPANDABLE STORAGE

Use our slot for either SD or MicroSD memory card and get video recordings even during network interruptions.

### IP AND IK RATED

Trust the robustness and reliability of your system with IP66/7 weather rating and IK10 impact rating for vandal resistance.

### 5 YEAR WARRANTY

Gain peace of mind with products backed by a 5-year, industry-leading warranty.

### LOW LIGHT TECHNOLOGY

Deliver safety and capture unexceptionably detailed footage even in low-light settings.

### DUAL EXPOSURE WIDE DYNAMIC RANGE

Capture details in scenes with both very bright and dark areas, so you can detect suspicious activity in all lighting conditions.

### ADAPTIVE INFRARED (IR)

Automatically adjusts IR beam width and exposure settings based on scene conditions to help maximize image quality.

### AUDIO CAPABILITIES

Available ports for external audio including sirens, microphones and/or loudspeakers for audio talk-down situations.

### RELAY I/O CONNECTIONS FOR FAST RESPONSE

Configure input actions (such as alarms) that trigger an external relay to perform an action (e.g., turn lights on).

### NDAA COMPLIANT

Approach US government with confidence, knowing our cameras comply with the National Defense Authorization Act.

# Specifications

Image Performance	2.0 MP	3.0 MP	5.0 MP
Sensor	1/2.8" progressive scan CMOS		
Aspect Ratio	16:9	4:3	4:3
Active Pixels (H x V)	1920 x 1080	2048 x 1536	2592 x 1944

Max Aperture	F1.6		F1.4
Control	P-Iris, Remote Focus and Zoom		

Image Control	
Image Compression Method	H.264 SmartCodec, H.265 SmartCodec, Motion JPEG
Streaming	Multi-stream H.264, Multi-stream H.265, Motion JPEG
Motion Detection	Pixel
Tamper Detection	Yes
Electronic Shutter Control	Automatic, Manual (1/6 to 1/8000 sec)
Iris Control	Automatic, Manual
Day/Night Control	Automatic, Manual
Flicker Control	60 Hz, 50 Hz
White Balance	Automatic, Manual
Backlight Compensation	Adjustable
Privacy Zones	Up to 64 zones

Auxiliary I/O	
Audio Compression Method	Opus, G.711 PCM 8 kHz
Audio Input/Output	Line level input and output
External I/O Terminals	Alarm In, Alarm Out

# Specifications

Network	
Network	100BASE-TX
Cabling Type	CAT5
Connector	RJ-45
ONVIF	ONVIF compliant with Profile S and Profile T (www.onvif.org)
Security	Password protection, HTTPS encryption, digest authentication, WS authentication, user access log, 802.1x port based authentication, CyberVigilant*
Protocol	IPv6, IPv4, HTTP, HTTPS, SOAP, DNS, NTP, RTSP, RTCP, RTP, TCP, UDP, IGMP, ICMP, DHCP, Zeroconf, ARP
Streaming Protocols	RTP/UDP, RTP/UDP multicast, RTP/RTSP/TCP, RTP/RTSP/HTTP/TCP, RTP/RTSP/HTTPS/TCP, HTTP
Device Management Protocols	SNMP v2c, SNMP v3

\* Feature will be added in the future with a firmware upgrade

Peripherals	
Onboard Storage	microSD/microSDHC/microSDXC slot – minimum class 6; class 10/UHS-1 or better recommended

Mechanical (Dome)	Surface Mount	In-Ceiling Mount	Pendant Mount NPT Adaptor	Pendant Mount NPT + Wall Mount
Dimensions (LxWxH)	147 x 147 x 119 mm; 5.8" x 5.8" x 4.7"	174 x 174 x 162 mm; 6.9" x 6.9" x 6.4"	153 x 153 x 166 mm; 6.0" x 6.0" x 6.5"	269 x 153 x 214 mm; 10.6" x 6.0" x 8.4"
Max. Ceiling Thickness	N/A	32 mm (1.25")	N/A	N/A
Weight	0.78 kg; 1.72 lbs	0.77 kg; 1.69 lbs	0.77 kg; 1.69 lbs	2.04 kg; 4.49 lbs
Dome Bubble	Polycarbonate, clear			
Body	Polycarbonate			Polycarbonate/aluminum
Housing	Vandal resistant			
Finish	Cool grey			Close to RAL 9003
Adjustment Range	360° pan, ±180° azimuth, 30° – 95° tilt (recommended), 10° – 95° tilt (maximum)			

Mechanical (Bullet)	
Dimensions (LxWxH)	285 mm x 131 mm x 97 mm; 11.2" x 5.1" x 3.8" (including mounting bracket)
Weight (Camera)	1.29 kg (2.84 lbs)
Weight (Mounting Bracket)	0.21 kg (0.46 lbs)
Body	Aluminum
Housing	Surface mount, tamper resistant, vandal resistant
Finish	Powder coat, cool grey
Adjustment Range	±175° pan, ±90° tilt, ±175° azimuth

Electrical	
Power Consumption (Dome)	8W max
Power Consumption (Bullet)	9W max
Power Source*	PoE: IEEE802.3af Class 3 compliant
RTC Backup Battery	3V manganese lithium

\* When powered with some models of PoE++ injectors, the injectors may not power the camera correctly.

Environmental	
Operating Temperature	-30 °C to +60 °C (-22 °F to 140 °F)
Storage Temperature	-10 °C to +70 °C (14 °F to 158 °F)
Humidity	0 - 95% non-condensing

Certifications	
Certifications/ Directives	UL, cUL, CE, ROHS, RCM, EAC, BIS, KC
Safety	UL 62368-1, CSA 62368-1, IEC/EN 62368-1, IEC 62471
Environmental	IEC 62262 IK10 Impact Rating, UL/CSA/IEC 60950-22, IEC 60529 IP66 and IP67 Weather Rating
Electromagnetic Emissions	FCC Part 15 Subpart B Class B, IC ICES-003 Class B, EN 55032 Class B, EN 61000-6-3, EN 61000-3-2, EN 61000-3-3
Electromagnetic Immunity	EN 55035, EN 61000-6-1

# GX Outdoor Dome Camera

Compact and cost-effective without sacrificing quality

Part of IndigoVision's GX Range, available in 2MP and 5MP resolution options - the GX Dome Camera's deliver pin sharp video that is fully ONVIF conformant. Any single point of failure in the system is removed through IndigoVision's Distributed Network Architecture (DNA). Our unique Distributed Network Architecture (DNA) removes the requirement for a central server, ensuring you never lose access to live video and benefit from minimal latency.

## Key Features & Benefits

### MOTION DETECTION

Operators get alerted immediately when motion is detected thanks to our built-in analytics.

### LOW LIGHT TECHNOLOGY

Deliver safety and capture unexceptionably detailed footage even in low-light settings.

### ONVIF<sup>®</sup> COMPLIANT

Built on an open platform to allow integration with other security solutions, so you can expand your existing security system.

### WIDE DYNAMIC RANGE

Capture details in scenes with both very bright and dark areas, so you can detect suspicious activity in all lighting conditions.

### H.265 WITH SMARTCODEC TECHNOLOGY

Reduce costs by maximizing bandwidth utilization and storage consumption without compromising image quality.

### IP AND IK RATED

Trust the robustness and reliability of your system with IP66/7 weather rating and IK08 impact rating for vandal resistance.

### NDAA COMPLIANT

# IR PTZ Cameras

Capture every detail with ultra-high resolution

With best in class performance, IndigoVision IR PTZ Cameras deliver rich, high resolution video with automatically adaptive IR LED illumination. This provides evidential video in pitch dark conditions for a distance of up to 350 m (1148 ft). Image stabilisation and ultra-low PTZ latency gives smoother operator viewing and control. You also get maximum reliability with IndigoVision's Distributed Network Architecture, which removes the requirement for a central server, ensuring you never lose access to live video and benefit from minimal latency.

## Key Features & Benefits

### LOW LIGHT TECHNOLOGY

Deliver safety and capture unexceptionably detailed footage even in low-light settings.

### WIDE DYNAMIC RANGE

Capture details in scenes with both very bright and dark areas, so you can detect suspicious activity in all lighting conditions.

### ONVIF<sup>®</sup> COMPLIANT

Built on an open platform to allow integration with other security solutions, so you can expand your existing security system.

### IP AND IK RATED

Trust the robustness and reliability of your system with IP66 weather rating and IK10 impact rating for vandal resistance.

### IMAGE STABILIZATION & ULTRA-LOW LATENCY

Detect incidents faster with smooth, superior long-range viewing and control.

### 5 YEAR WARRANTY

Gain peace of mind with products backed by a 5-year, industry-leading warranty.

### ACF (ACTIVITY CONTROLLED FRAMERATE)

ACF reduces the frames per second (fps) based on activity cutting bandwidth consumption and maximizing storage space, reducing costs by up to 95%.

### CYBERVIGILANT TECHNOLOGY

Enhance your existing camera firewall by getting alerted of unauthorized access, as it is attempted.

### SERVO FEEDBACK

When encountering external force, such as vandalism, the camera will return immediately to its original position.

### ADAPTIVE INFRARED (IR) LED ILLUMINATION

Automatically provides clear and evidential video even in pitch dark condition for a distance of up to 350 m (1148 ft).

### 360° COVERAGE

Monitor virtually any area within a 360° view, including straight down and above the horizon.

### NDAA COMPLIANT

Approach US government with confidence, knowing our cameras comply with the National Defense Authorization Act.

# SP Multisensor Camera

Capture every detail in a 360° rotation in Ultra High Resolution

The SP Multisensor camera comes with 4 individually positionable and configurable camera sensors offering 5MP resolution on each sensor. With effective resolution of 20MP, the camera provides excellent image quality to cover large areas. You also get maximum reliability with IndigoVision's Distributed Network Architecture, which removes the requirement for a central server, ensuring you never lose access to live video and benefit from minimal latency.

## Key Features & Benefits

### INCREASED RANGE OF SENSOR POSITIONING

The camera features four individually-adjustable camera sensors that can be positioned to monitor virtually any area.

### LOW LIGHT TECHNOLOGY

Deliver safety and capture unexceptionably detailed footage even in low-light settings.

### IP AND IK RATED

Trust the robustness and reliability of your system with IP66 weather rating and IK08 impact rating for vandal resistance.

### INTERCHANGEABLE CAMERA MOUNTS

Modular design. Simple and intuitive to install so that you can be up and running in minutes.

### ONVIF<sup>®</sup> COMPLIANT

Built on an open platform to allow integration with other security solutions, so you can expand your existing security system.

### 5 YEAR WARRANTY

Gain peace of mind with products backed by a 5-year, industry-leading warranty.

### WIDE DYNAMIC RANGE

Available in all resolutions, capture details in scenes with both very bright and dark areas, so you can detect suspicious activity in all lighting conditions.

### ADAPTIVE INFRARED (IR)

Automatically adjusts IR beam width and exposure settings based on scene conditions to help maximize image quality.

### H.265 WITH SMARTCODEC TECHNOLOGY

Reduce costs by maximizing bandwidth utilization and storage consumption without compromising image quality.

### AUDIO CAPABILITIES

Available ports for external audio including sirens, microphones and/or loudspeakers for audio talk-down situations.

### EXPANDABLE STORAGE

Use our slot for either SD or MicroSD memory card and get video recordings even during network interruptions.

### RELAY I/O CONNECTIONS FOR FAST RESPONSE

Configure input actions (such as alarms) that trigger an external relay to perform an action (e.g., turn lights on).

# Specifications

Image Performance (per image sensor)	
Sensor	1/2.8" Progressive CMOS
Active Pixels	2592 x 1944
Maximum Resolution	10368 x 1944
Aspect Ratio	4:3
IR Illumination - Optional (high power 850 nm LEDs)	30m (98 ft) maximum distance at 0 lux
Minimum Illumination	0.025 lux (F1.2) in color mode 0.005 lux (F1.2) in mono mode 0 lux with optional IR illuminator
Dynamic Range	100 dB, true WDR, dual exposure
3D Noise Reduction Filter	Yes
Image Rate – Analytics Enabled on All Sensors	13 / 13 fps (60 Hz/50Hz)
Image Rate – High Framerate Mode	15 / 14 fps (60 Hz/50Hz)
Lens and Horizontal Field of View	2.8mm f1.2 – 103° Remote focus

Image Control	
Image Compression Method	H.264, H.265, Motion JPEG
Streaming	Multi-stream H.264, Multi-stream H.265, Motion JPEG
Motion Detection	Selectable sensitivity and threshold
Electronic Shutter Control	Automatic, Manual (1/8 to 1/8000 sec)
Iris Control	Fixed
Day/Night Control	Automatic, Manual
Flicker Control	60 Hz, 50 Hz
White Balance	Automatic, Manual
Backlight Compensation	Adjustable
Privacy Zones	Up to 64 zones
Audio Compression Method	G.711 PCM 8 kHz
Audio Input/Output	Line level input and output
External I/O Terminals	Alarm In, Alarm Out

Network	
Network	Gigabit Ethernet, 1000BASE-TX
Cabling Type	CAT5E
Connector	RJ-45
API	ONVIF® compliance Profile S and Profile T ( <a href="http://www.onvif.org">www.onvif.org</a> )
Security	Password protection, HTTPS encryption, digest authentication, WS authentication, user access log, 802.1x port based authentication, CyberVigilant
Protocol	IPv4, IPv6, HTTP, HTTPS, SOAP, DNS, NTP, RTSP, RTCP, RTP, TCP,UDP, IGMP, ICMP, DHCP, Zeroconf, ARP
Streaming Protocols	RTP/UDP, RTP/UDP multicast, RTP/RTSP/TCP, RTP/RTSP/HTTP/TCP, RTP/RTSP/HTTPS/TCP, HTTP
Device Management Protocols	SNMP v2c, SNMP v3

Peripherals	
Onboard Storage	MicroSD/microSDHC/microSDXC slot – class 10/UHS-1 or better recommended

# Ordering Information

The variety of mounting options for the SP Multisensor provides maximum flexibility. The camera module can be used in any of the mounting options.

Mounting Scenario	Ordering Information
<b>PENDANT WALL MOUNT</b> 	Order one of: <ul style="list-style-type: none"> <li>• Camera module (SP-20MP-MS-360)</li> <li>• MS-AD-PEND</li> <li>• MS-DO-COVR-CLR or MS-DO-COVR-SMK</li> <li>• MS-IRPTZ-WALL-MNT</li> <li>• Optional, MS-AD-IRIL</li> </ul>
<b>PENDANT NPT MOUNT</b> 	Order one of: <ul style="list-style-type: none"> <li>• Camera module (SP-20MP-MS-360)</li> <li>• MS-AD-PEND</li> <li>• MS-DO-COVR-CLR or MS-DO-COVR-SMK</li> <li>• MS-IRPTZ-NPTA-MNT</li> <li>• Optional, MS-AD-IRIL</li> </ul>
<b>SURFACE MOUNT</b> 	Order one of: <ul style="list-style-type: none"> <li>• Camera module (SP-20MP-MS-360)</li> <li>• MS-AD-DOME</li> <li>• MS-DO-COVR-CLR or MS-DO-COVR-SMK</li> <li>• Optional, MS-AD-IRIL</li> </ul>
<b>IN-CEILING MOUNT</b> 	Order one of: <ul style="list-style-type: none"> <li>• Camera module (SP-20MP-MS-360)</li> <li>• MS-AD-CEIL</li> <li>• MS-DC-COVR-CLR or MS-DC-COVR-SMK</li> <li>• Optional, MS-DC-CPNL if ceiling panel needed</li> </ul>

Display Part Number	Product Code	Description
SP-20MP-MS-360	754980	SP Multisensor, Camera Module Only

## Mounting Adapters and Dome Covers

The SP Multisensor modular design provides pendant, surface, or in ceiling mounting adapters and a choice of two dome compatible covers per mounting option.

Display Part Number	Product Code	Description
MS-AD-DOME	150251	Outdoor surface mount adapter, must order either a MS-DO-COVR-CLR or MS-DO-COVR-SMK.
MS-AD-PEND	150252	Outdoor pendant mount adapter, must order one of MS-IRPTZ-WALL-MNT or MS-IRPTZ-NPTA-MNT and one of MS-DO-COVR-CLR or MS-DO-COVR-SMK.
MS-IRPTZ-WALL-MNT	150500	Pendant wall arm adapter, for use with MS-AD-PEND.
MS-IRPTZ-NPTA-MNT	150501	Pendant NPT adapter for use with MS-AD-PEND.
POLE-MNT	150506	Aluminum pole mounting bracket.
CRNR-MNT	150507	Aluminum corner mounting bracket.
MS-AD-CEIL	150253	In-ceiling adapter, must order either a MS-DC-COVR-CLR or MS-DC-COVR-SMK.
MS-DO-COVR-CLR	150400	Dome bubble and cover, for outdoor surface mount or pendant mount, clear.
MS-DO-COVR-SMK	150401	Dome bubble and cover, for outdoor surface mount or pendant mount, smoked. Not recommended for lowlight applications.
MS-DC-COVR-CLR	150403	Dome bubble and cover, for in-ceiling mount, clear.
MS-DC-COVR-SMK	150402	Dome bubble and cover, for in-ceiling mount, smoked. Not recommended for lowlight applications.
MS-DC-CPNL	150258	Metal ceiling panel.

# Ordering Information

## Optional IR Illuminator

The optional IR Illuminator is available for the SP Multisensor when mounted in a pendant or surface mount adapter.

Display Part Number	Product Code	Description
MS-AD-IRIL	150250	Optional IR illuminator ring, up to 30m (98ft), for use with MS-DO-COVR-CLR.

## Optional Injectors

Display Part Number	Product Code	Description
POE-60	150101	Indoor single port Gigabit PoE++ 60W, Region specific power cord included. Temperature range of the PoE injector is -10 °C to +45 °C (14 °F to 113 °F).
POE-30	150100	Indoor single port POE+ injector. Injector operational temperature range -20°C to +40°C (-4°F to 104°F).

## Miscellaneous Accessories

Display Part Number	Product Code	Description
AUX-FERR-TRKSID	150550	Ferrite clamp for use with aux power cable when meeting EN 50121-4 requirements. Pack of 5.

# SP Thermal Cameras

Capture every detail with industry-leading thermal technology

The SP Thermal Camera is the perfect solution for low light, long range thermal applications. You also get maximum reliability with IndigoVision's Distributed Network Architecture, which removes the requirement for a central server, ensuring you never lose access to live video and benefit from minimal latency. The SP Thermal Camera delivers a different dimension of safety when combined with IndigoVision's Control Center.

## Key Features & Benefits

### ONVIF<sup>®</sup> COMPLIANT

Built on an open platform to allow integration with other security solutions, so you can expand your existing security system.

### MULTIPLE LENS OPTIONS

Choose from various lens options, which allow human detection at distances of up to 310 meters.

### SMARTCODEC TECHNOLOGY

Reduce costs by maximizing bandwidth utilization and storage consumption without compromising image quality.

### RELAY I/O CONNECTIONS FOR FAST RESPONSE

Configure input actions (such as alarms) that trigger an external relay to perform an action (e.g., turn lights on).

### EXPANDABLE STORAGE

Use our slot for either SD or MicroSD memory card and get video recordings even during network interruptions.

### AUDIO CAPABILITIES

Available ports for external audio including sirens, microphones and/or loudspeakers for audio talk-down situations.

### IP AND IK RATED

Trust the robustness and reliability of your system with IP66/7 weather rating and IK10 impact rating for vandal resistance.

### NDAA COMPLIANT

Approach US government with confidence, knowing our cameras comply with the National Defense Authorization Act.

### 5 YEAR WARRANTY

Gain peace of mind with products backed by a 5-year, industry-leading warranty.

## Specification

Camera Features	Standard Lens	Telephoto Lens
Sensor	1/2.8" Progressive CMOS	
Active Pixels (HxV)	HD (1920x1080)	
Minimum Sensitivity	Day: 0.02 Lux (colour). Night: 0 Lux (IR on). 30IRE, F1.4, 1/30s shutter	
Dynamic Range	WDR 120dB Max	
Gain Control	Auto/Manual	
Wide Dynamic Range	On/Off	
White Balance Mode	Auto/2800K/4000K/5000K/6500K/7500K/Fluorescent/Fluorescent_H/Underwater/Manual	
Day/Night	True Day/Night with Mechanical IR Cut Filter	
IR Illuminator	Built-in IR Illuminator 850nm wavelength, effective distance >25m	
Video Resolution	1920x1080 pixels(HD); 1280x720 pixels (720p); 800x600 (SVGA); 704x576 pixels and 704x480 (D1); 352x288 pixels and 352x240 pixels (SIF)	
Signal/Noise Level	50dB	
Lens Options	2.8mm - 12mm, Horizontal view angle 96° (W) 35° (T), F1.4, Vari-focal, Remote Zoom/Focus	7mm - 22mm, Horizontal view angle 40° (W) 18° (T), F1.4, Vari-focal, Remote Zoom/Focus
Zoom	4x optical	3x optical
Iris Control	P-Iris	
Shutter	Rolling; Auto from 1/15 - 1/32,000 sec, Anti-Flicker, Slow Shutter (1/2, 1/3, 1/5, 1/6, 1/7.5, 1/10)	
Exposure Control	Auto/Manual	
Gimbal Adjustment	3 axis adjustment	
Video Compression	Full frame rate, full colour: H.265/H.264/MJPEG; up to 30fps	
Video Bit Rate	User-configurable bit rates from 100Kbps up to 10Mbps	
Privacy Zones	16 User Defined	
Video Multi-Streaming	Up to 32Mbps total video output; Unlimited multicast connections. Up to eight 4Mbps unicast connections; Up to sixteen 1Mbps unicast connections	
Video Multi-Encoder	Up to two simultaneous resolutions with guaranteed frame rate including: up to 1080p (30fps), 720p (30fps), D1 (30fps), SIF (30fps)	
Video Analytics	ACF, Motion Detection	
Audio Compression	G.711Mu/AAC	
Audio Bit Rate	64Kbps per channel	
Audio Encoder	1 Stream Configuration for Main and Sub streams	
Audio Resolution	Full Duplex, G.711: 8kHz, AAC: 8kHz, 16kHz & 48kHz. Mono input, Mono Output	
Audio Input	Line in, terminal block connector	
Audio Output	Line out, terminal block connector	
Binary Input/Output	1 input; 1 output	
Network Interface	IEEE802.3 and IETF standards: 10/100 Base-T Ethernet, IPv4, TCP, UDP, RTP, RTSP, ICMP, IGMP, SNMP, HTTP, HTTPS, DHCP	
Network Security	HTTPS, CyberVigilant®, IEEE 802.1x	
CyberVigilant® Technology	Yes	
Time	Embedded real-time clock, SNTP client	
SD Storage	microSDXC upto 128GB support (card not included)*	
Dimension/Weight	Internal: 159.5mm (dia) x 114mm (h) and 0.85Kg / 6.28in (dia) x 4.49in (h) and 1.87lb Vandal Resistant: 171.5mm (dia) x 114mm (h) and 1.1Kg / 6.75in (dia) x 4.49in (h) and 2.43lb

## Specification

Camera Features			
Sensor	1/1.9" Progressive CMOS		
Active Pixels (HxV)	HD (1920 x 1080)		
Minimum Sensitivity	Day: 0.002 Lux (color). Night: 0.0002 Lux (mono). 30 IRE, F1.5, 1/30s shutter		
Dynamic Range	WDR 120dB		
Gain Control	Auto/Manual		
Back Light Compensation	Off/BLC/HLC/WDR		
White Balance Mode	Auto/ATW/Indoor/Outdoor/Manual /Sodium Lamp/Natural/Street Lamp		
Day/Night	True Day/Night with Mechanical IR Cut Filter		
Video Resolution	1920x1080 pixels (HD); 1280x960 pixels (1.3MP); 1280x720 pixels (720p); 704x576 pixels (D1); 704x480 pixels (D1) 352x288 pixels (SIF); 352x240 pixels (SIF)		
Signal/Noise Level	> 56dB		
Lens Options	5.9mm - 180mm, Horizontal view angle 61.2° (W) 2.1° (T), F1.5 to F4.3 Autofocus with manual override		
Zoom	30x optical + 16x digital		
Iris Control	Automatic with Manual override		
Shutter	Rolling; Auto from 1/1 to 1/30,000 sec		
Exposure Control	Auto/Aperture Priority/Shutter Priority/Gain Priority/Manual		
Image Stabilizer	Yes		
Video Compression	Full frame rate, full colour: H.265*/H.264/MJPEG up to 30fps		
Video Bit Rate	User-configurable from 24Kbps up to 8Mbps		
Video Multi-Streaming	Up to 32Mbps total video output. Unlimited multicast connections; Up to eight 4Mbps unicast connections		
Video Multi-Encoder	Up to two simultaneous resolutions with frame rate including: up to 1080p (30fps) plus up to 1080p (30fps) or lower		
Video Analytics	ACF, ACF+, Motion Detection, Tripwire, Intrusion, Abandoned Object, Missing Object, Scene Change, Video Tamper, Face Detection		
Intelligence	Heat Map		
Audio Compression	G.711Mu/AAC		
Audio Bit Rate	16-96Kbps per channel		
Audio Dual Encoder	Main Stream: 1 Stream Configuration plus Sub Stream: 1 Stream Configuration		
Audio Resolution	G.711Mu 8 KHz sample rate, AAC is configurable with options 8, 16, 32 and 48 KHz		
Audio Analytics	Audio Input Abnormal, Audio Intensity High		
Audio Input	1x Line in		
Audio Output	1x Line out		
Binary Input/Output	7 Pull up input for non powered contacts; 2 Solid state open collector output, Max 20VDC 1A		
Network Interface	IEEE802.3 and IETF standards: 100/1000 Base-T Ethernet, IPv4/IPv6, TCP, UDP, RTP, RTSP, ICMP, IGMP, SNMP, HTTP, HTTPS, PPPoE, uPnP, QoS, DHCP, DNS		
Network Security	HTTPS, IP Filter, IEEE 802.1x		
CyberVigilant® Technology	Yes		
Time	Embedded real-time clock, NTP client		
SD Storage	microSDXC upto 128GB support (card not included)*		
Dimensions/Weight	242mm (dia) x 341mm (h) and 8.25kg (with sun shield) / 9.53in (dia) x 13.43in (h) and 18.19lbs (with sun shield)		
Regulatory	EN 55032, EN 50130-4 , EN 55024, EN 61000-3-2, EN 61000-3-3, CFR47 part 15 Subpart B, UL60950-1, EN60068-2-6, EN 60068-2-64, EN 60068-2-27, EN 60068-2-1, EN 60068-2-2, EN 60068-2-30, EN 60529, EN 62262		
Housing	Vandal resistant aluminium alloy and Polycarbonate/ABS housing and clear polycarbonate dome included		
Protection Rating	IP67, IK10		
Electrical	24V AC @1.8A; 43W		
Operating Temperature	External PSU: -40°C to 70°C (-40°F to 158°F)		
Cold Start	-30°C (-22°F)		
Supplied Accessories	Wall Mount bracket with 1.5" BSP Thread Adaptor		
IndigoVision Software Requirements	Control Center v15.4 or later		
Supported Internet Browsers	Internet Explorer v11.0 or later		
ONVIF	Profile S		
PTZ Control			
Preset	300	Privacy Zones	24 User Defined
Preset Tours	8 each with 32 presets	Pan Range	360° Continuous Rotation
Pattern/Mimic tours	5 each with up to 10 minutes	Tilt Range	110° (-20° above horizon to 90° vertically down)
Picture Freeze Option	Yes	Pan/Tilt Speed	Pan - 0.1°/s to 300°/s, Tilt - 0.1°/s to 150°/s
		Pan/Tilt Warranty	Moving part warranty limited to 2 million Pan and Tilt Operations

\* SDCard Storage independent of IndigoVision's NVRs.  
 ^ H.265 requires Control Center 16.0 or later.

# Bullet Camera

High-end: performance, not price tag.

With BX HD Bullet Cameras you get supreme connectivity and flexibility, combined with great video and audio. You also get maximum reliability, and the other significant benefits of IndigoVision's Distributed Network Architecture. BX HD Bullet Cameras deliver a different dimension of safety when combined with IndigoVision's Control Center.

# Minidome Cameras

High-end: performance, not price tag.

With BX HD, 4MP and 4K Minidome Cameras you get supreme connectivity and flexibility, combined with great video and audio. You also get maximum reliability, and the other significant benefits of IndigoVision's Distributed Network Architecture. BX HD, 4MP and 4K Minidome Cameras deliver a different dimension of safety when combined with IndigoVision's Control Center.

Day/Night	True Day/Night with Mechanical IR Cut Filter
IR Illuminator	Built-in IR Illuminator 850nm wavelength, effective distance >30m, 180°
Video Resolution	4096x1800; 3840x1680; 2880x1264; 1024x452
Lens Options	Four 3.0mm, Horizontal view angle 180°, Vertical view angle 80°, F2.0, Fixed Iris, board mount
Video Compression	Full frame rate, full colour: H.264/MJPEG; up to 25fps (ISO 14496-10)
Video Bit Rate	User-configurable bit rates from 500Kbps up to 10Mbps
Privacy Zones	Off / On (4 Area, Rectangle)
Video Multi-Streaming	Up to 32Mbps total video output; Unlimited multicast connections. Up to four 8Mbps unicast connections
Video Multi-Encoder	Up to two simultaneous resolutions including: 4096x1800@25fps plus 1024x452@25fps (PAL Region) or 4096x1800@20fps plus 1024x452@30fps (NTSC Region)
Video Analytics <sup>A</sup>	Motion Detection, Tripwire, Intrusion, Abandoned Object, Missing Object, Scene Change, Video Tamper, Face Detection
Intelligence	People Counting, Heat Map
Audio Compression	G.711, AAC
Audio Bit Rate	32Kbps per channel
Audio Resolution	Full Duplex. Mono Input, Mono Output G.711: 8kHz sample rate. AAC: 8kHz, 18kHz, 32kHz or 48kHz sample rate
Audio Analytics <sup>A</sup>	Audio Input Abnormal, Audio Intensity High
Audio Input	Line in, RCA connector
Audio Output	Line out, RCA connector
Binary Input/Output	2 Pull up input for non powered contacts; 2 Solid state open collector output, Max 30.0V, 0.5A
Network Interface	IEEE802.3 and IETF standards: 100/1000 Base-T Ethernet, HTTP; HTTPS; TCP; ARP; RTSP; RTP; UDP; SMTP; FTP; DHCP; DNS; DDNS; PPPoE; IPv4/v6; QoS; UPnP; NTP; Bonjour; 802.1x; Multicast; ICMP; IGMP; SNMP
Network Security	HTTPS, IP Filter, IEEE 802.1x
Time	Embedded real-time clock, NTP client
SD Storage	microSDHC 128GB support (card not included)*
Dimension/Weight	212mm (dia) x 169.5mm (h) and 3.6Kg / 6.67in (dia) x 7.13in (h) and 7.93lbs
Regulatory	EN 55032, EN 55024, EN 61000-3-2, EN 61000-3-3, FCC Part 15 Subpart B Class A, EN 50130-4, EN61000-4-2, EN61000-4-3, EN61000-4-4, EN61000-4-5, EN61000-4-6, EN61000-4-8, EN61000-4-11, IEC60068-2-27 (Shock), IEC60068-2-6 (Sine Vibration), UL60950-1
Housing	White vandal resistant aluminium alloy including 400mm cable bundle
Protection Rating	IP67, IK10 (IEC 62262)
Electrical	PoE+ (802.3at Class 4) or 24V AC @1.1A; 20W
Operating Temperature	-40°C to 60°C (-40°F to 140°F)
Cold Start	-20°C (-4°F)
Supplied Accessories	Wall Mount Bracket
IndigoVision Software Requirements	Control Center v14.0 or later
Supported Internet Browsers	Internet Explorer v11.0 or later

# HD Interceptor PTZ Cameras

Ruggedised camera with built-in IR and white light

With integrated white and infrared lighting, flat glass and 216mm lens the IndigoVision High Definition (HD) Interceptor PTZ Camera delivers amazing 1080p video, regardless of ambient light. Ruggedised, with IP68 and IK10 rating, and with an operating temperature range of -40°C to 60°C, the Interceptor can easily cope with the most challenging environments.

# Thermal Temperature Screening Solution

Easy Installation. Instant Temperature Readings.

IndigoVision's Temperature Measurement Thermal Bullet Camera combined with the Blackbody is the perfect solution for obtaining quick contactless temperature readings. 2MP Optical lens in-built into the camera provides an optical stream when required. Integration into Control Center provides instant alarms for informed actions.

## Thermal Blackbody Dimensions

## Overview

Blackbody is a heat radiation calibration device that maintains a constant temperature. This is used as a reference point by the thermal camera to measure elevated skin temperature in a continuous, contactless and non invasive manner.

## Specification

Default calibration temp.	35.0°C (95°F)
Range	Ambient temp. +5.0°C to 50.0°C (+41°F to 122°F)
Effective radiation surface	70 mm × 70 mm (2.76in x 2.76in)
Resolution	0.1°C (0.18°F)
Accuracy	±0.2°C (±0.36°F)
Stability	±0.1 to 0.2°C (±0.18°F to 0.36°F) / 30min
Emissivity	0.97 (±0.01)
Power supply	100-240V AC, 50/60Hz, 0.5A
Dimension/Weight	184mm (d) × 125mm (w) × 125mm (h) and 2.35Kg (7.24in (d) × 4.92in (w) × 4.92in (h) and 5.18lb)
Operating temperature	0°C to 40°C (32°F to 104°F)
Storage temperature	-10°C to 50°C (14°F to 122°F)
Calibration	Recommended calibration once every 12 months. Available as a paid service from IndigoVision.
Warranty	12 months

## Recommended Installation

1. For indoor installations only.
2. One person in frame for screening at a time.
3. 5 seconds within the region of interest.
4. The upper part of the face must not be covered. Glasses, hats and balaclavas should be removed including any hair covering the forehead.

## Adaptor Plate Dimensions

<sup>A</sup> IndigoVision's products are not medical devices or intended for medical use and have not been tested or approved by any regulatory authority. In particular, none of IndigoVision's products should be used or relied upon as a primary means of identifying persons who may be infected by any disease (including COVID-19). The accuracy of temperature readings depends on a wide variety of conditions and, accordingly, such readings should be regarded as indicative only. Any elevated body temperature readings should be confirmed with an appropriate medical device (e.g. an NCIT or clinical grade contact thermometer).

Each customer / user shall be solely responsible for its selection of IndigoVision's products as being suitable for its requirements - none of IndigoVision's products have been developed or modified to meet the requirements of any individual customer / user. To the fullest extent permitted by law, each customer / user shall be solely responsible (and IndigoVision shall have no responsibility or liability) for a customer's / user's use of IndigoVision's products and for any acts or omissions of the customer / user / any other party, which are based (wholly or in part) on the use of IndigoVision's products.

Surveillance and public health laws vary by jurisdiction. Please check all relevant laws in the intended jurisdiction of use before using IndigoVision's products in order to ensure that your use of the solution conforms with applicable laws. IndigoVision shall not be liable in the event that its products (or the manner in which they are used) breaches any such applicable law.

# Thermal Bullet Camera

High-end: performance, not price tag.

Together with Thermal Technology, the BX Thermal Bullet Camera is the perfect solution for dark, long range monitoring applications. You also get maximum reliability, and the other significant benefits of IndigoVision's Distributed Network Architecture. The BX Thermal Bullet Camera delivers a different dimension of safety when combined with IndigoVision's Control Center.

## Key Features

# Dimensions

# Specification

Camera Features	7.5mm	19mm	35mm
Sensor	400 x 300 VOx Uncooled Thermal Sensor Technology		
Active Pixels (HxV)	400 x 300		
Pixel Size	17µm		
Thermal Sensitivity	<40mK@f/1.0		
Spectral Range	7~14µm		
Video Resolution	Main Stream: 1280 x 720 pixels (scaled from native sensor resolution) Sub Stream: 640 x 512 pixels (scaled from native sensor resolution)		
Lens Options	Focal Length: 7.5mm Angle of View: 52°x40°	Focal Length: 19mm Angle of View: 20.4°x15.3°	Focal Length: 35mm Angle of View: 10.4°x8.3°
Effective Distance* Man (1.8m x 0.5m)	D: 240m R: 60m I: 30m	D: 640m R: 160m I: 80m	D: 1300m R: 320m I: 160m
Effective Distance Vehicle (2.3m x 2.3m)	D: 720m R: 180m I: 90m	D: 2000m R: 500m I: 250m	D: 4000m R: 1000m I: 500m
Color Palettes	14 (White Hot/Black Hot/Fusion/Rainbow/Globlow/Ironbow 1/Ironbow 2/Sepia/Colour 1/Colour 2/Ice Fire/Rain/Red Hot/Green Hot)		
Video Compression	Full frame rate, H.264/MJPEG; up to 30fps		
Video Bit Rate	User-configurable bit rates from 64Kbps up to 8Mbps		
Privacy Zones	4 User Defined		
Video Multi-Streaming	Up to 32Mbps total video output; Unlimited multicast connections; Up to four 8Mbps unicast connections		
Video Multi-Encoder	Up to two simultaneous resolutions		
Thermal Analytics	Heat Detection, Hottest & Coldest point on-screen display (OSD)		
Video Analytics	Motion Detection, Tripwire, Intrusion, Abandoned Object, Missing Object		
Audio Compression	G.711µ, AAC		
Audio Bit Rate	32Kbps per channel		
Audio Resolution	Audio bit rate is 8 KHz for G.711µ and AAC is configurable with options 8, 16, 32 and 48 KHz		
Audio Analytics	Audio Input Abnormal, Audio Intensity High		
Audio Input	Line in, 3.5mm Connector, Mono		
Audio Output	Line Out, 3.5mm Connector, Mono		
Binary Input/Output	2 Pull up inputs for non powered contacts; 1 Solid state open collector output, 30V DC / 21VAC, 500mA		
Network Interface	IEEE802.3 and IETF standards: 10/100 Base-T Ethernet, IPv4/ IPv6, HTTP, HTTPS, TCP/IP, UDP, UPnP, ICMP, IGMP, SNMP, RTSP, RTP, SMTP, NTP, DHCP, DNS, PPPOE, DDNS, QoS, Bonjour, 802.1x		
Network Security	HTTPS, IP Filter, IEEE 802.1x		
CyberVigilant® Technology	Yes		
Time	Embedded real-time clock, NTP client		
SD Storage	microSDHC up to 128GB support (card not included)**		
Dimension/Weight	291mm (d) x 103.8mm (w) x 97.2mm (h) and 1.9Kg / 11.46in (d) x 4.09in (w) x 3.83in (h) and 4.19lbs		
Regulatory	EN 55032, EN 61000-3-2:2014, EN 61000-3-3, EN 55024+A1, EN 50130-4+A1, FCC Part 15 Subpart B, UL60950-1, EN 60068-2-1:2007, EN 60068-2-2:2007, EN 60068-2-30, EN 60068-2-6, EN 60068-2-64, EN 60068-2-27, EN 60529, EN 62262		
Housing	White vandal resistant aluminium alloy with polycarbonate sun shade including 420mm cable bundle		
Protection Rating	IP67, IK10 (enclosure only)		
Electrical	PoE (802.3af Class 0) or 12V DC / 24V AC; >13W		
Operating Temperature	-40°C to 60°C (-40°F to 140°F)		
Cold Start	-20°C (-4°F)		
IndigoVision Software Requirements	Control Center v15.2 or later		
Supported Internet Browsers	Internet Explorer v11.0 or later		
ONVIF	Profile S		

\* Effective distance values shown are nominal values and should be used as estimates only. Exact value calculations depend on a wide variety of conditions. D:Detection, R: Recognition, I : Identification.

\*\* SDCard Storage independent of IndigoVision's NVRs. Note: Specifications are correct at the datasheet date of issue and are subject to change without prior notice.

## Specification

Camera Features	XF HD Fixed ATEX Camera	XP HD PTZ ATEX Camera	
Sensor	1/2.8" Progressive CMOS		
Active Pixels (HxV)	HD (1920x1080)		
Minimum Sensitivity	Day: 0.01 Lux (color). Night: 0.001 Lux (mono). 50 IRE, F1.6, 1/30s shutter		
Dynamic Range	WDR > 120dB		
Gain Control	Auto/Manual		
Back Light Compensation	On/Off		
White Balance Mode	Auto/Manual setting		
Day/Night	True Day/Night with Mechanical IR Cut Filter		
Video Resolution	1920x1080 pixels (HD); 1280x960 pixels (1.3MP); 1280x720 pixels (720p); 704x576 pixels (D1); 352x288 pixels (SIF)		
Lens Options	4.5mm - 135mm Horizontal view angle 67.8°(W) 2.4° (T), F1.6, Auto focus		
Zoom	30x optical + 16x digital		
Iris Control	DC Auto-iris		
Shutter	Rolling; Auto from 1/3 - 1/10,000 sec		
Exposure Control	Auto/Low Noise/Low Motion Blur/Manual		
Video Compression	Full frame rate, full color: H.264/MJPEG ; up to 30fps (ISO 14496-10)		
Video Bit Rate	User-configurable bit rates from 64Kbps up to 8Mbps		
Video Multi-Streaming	Up to 32Mbps total video output; Unlimited multicast connections. Up to four 8Mbps unicast connections; Up to sixteen 1Mbps unicast connections		
Video Multi-Encoder	Up to two simultaneous resolutions including: 1080p (60fps), 1080p (30fps), 720p (60fps), 720p (30fps), D1 (30fps), SIF (30fps)		
Video Analytics <sup>A</sup>	Motion Detection, Video Tamper, Face Detection. In fixed mode also includes Tripwire, Intrusion, Abandoned Object & Missing Object		
Network Interface	IEEE802.3 and IETF standards: 10/100 Base-T Ethernet, IPv4/IPv6, TCP, UDP, RTP, RTSP, ICMP, IGMP, SNMP, HTTP, HTTPS, SSH, PPPoE, uPnP, QoS, DHCP		
Network Security	HTTPS, IP Filter, IEEE 802.1x		
Time	Embedded real-time clock, NTP client

# BX130 8/16 Channel Encoder

Cost-Effective analog to World Class IP Video Migration

Part of IndigoVision’s professional BX range, the BX130 8/16 Channel Encoder delivers cost-effective migration from analog to IndigoVision’s renowned world class IP solution. The BX130’s outstanding H.264 compression, reduced storage and better video quality than other mid-range encoders.

Completely integrated with IndigoVision’s Control Center software and Network Video Recorders (NVRs), HD and Megapixel cameras can be added easily, giving the same world class IP video solution that’s trusted by some of the most demanding security installations in the world.

## Specification

General Specification	
Video Resolution	1920x1080 pixels (1080p); 1280x720 pixels (720p); 960x576 pixels (960H PAL); 960 x 480 pixels (960H NTSC); 720x576 pixels (D1 PAL); 720x480 pixels (D1 NTSC); 352x576 pixels (HD1 PAL); 352x480 pixels (HD1 NTSC); 704x576 pixels (4SIF PAL); 704x480 pixels (4SIF NTSC); 352x288 pixels (SIF PAL); 352x240 pixels (SIF NTSC); 176x144 pixels (QSIF PAL); 176x120 pixels (QSIF NTSC)
Video Compression	Full frame rate, full color: H.264 (ISO 14496-10); up to 15fps at up to 1080p resolution, up to 30fps at up to 4SIF
Video Bit Rate	User-configurable bit rates from 31Kbps up to 6Mbps per video channel
Video Multi-Streaming	Up to 64Mbps total video output; unlimited multicast connections. Up to sixteen 4Mbps unicast connections
Video Multi-Encoder	Up to sixteen 4Mbps
Video Analytics	Motion Detection, Video Loss, Tamper
Video Input	8/16 Channel video, HDCVI/AHD/TVI/CVBS support, standard BNC connectors
Audio Compression	G.711
Audio Bit Rate	32Kbps per channel
Audio Resolution	Full Duplex, 8kHz sample rate, mono Input
Audio Input	Line in, RCA connector
Audio Output	N/A
Binary Input/Output	8/16 Pull up input for non powered contacts; 3 Solid state open collector output, Max 30.0V, 0.5A
Data Input/Output	RS485 (PTZ Control)
Network Interface	IEEE802.3 and IETF standards: 100 Base-T Ethernet (8 CH), 1000 Base-T Ethernet (16 CH), TCP, UDP, RTP, RTSP, ICMP, IGMP, SNMP, HTTP, HTTPS, PPPoE, uPnP, DHCP
Time	Embedded real-time clock, NTP client
Dimensions/Weight	236mm (d) x 260mm (w) x 48mm (h) and 0.75Kg (excluding power supply) / 9.29in (d) x 10.24in (w) x 1.89in (h) and 1.65lb (excluding power supply)
Regulatory	EN55032 Class A, EN55024, EN50130-4, EN61000-3-2, EN61000-3-3, EN61000-4-2, EN61000-4-3, EN61000-4-4, EN61000-4-5, EN61000-4-6, EN61000-4-8, EN61000-4-11, FCC Part 15 Subpart B Class A
Electrical	12V DC; 10W max
Operating Temperature	-10°C to 50°C (14°F to 122°F)
Power Supplies	12V DC Power supply included
Mounting Options	2U high rack mount kit available
IndigoVision Software Requirements	Control Center v15.1 or later
ONVIF	Profile S

# RECORD

## Ensure you always have the evidence you need of recorded incident

Don't let your investigations be constrained by lost or low quality recorded footage. IndigoVision's range of Network Video Recorders (NVRs) will never miss a moment of recording, to give you the reassurance that you will always have footage of critical situations.

We provide NVR alternatives to suit your specific needs: from Compact editions to suit smaller sites, up to our Large Enterprise NVR which allows you to record hundreds of cameras from a single device for long video retention (up to 800 channels per NVR with 3PB of storage).

Automatic NVR failover means that if your primary NVR goes down, a back-up will automatically take over the recording, so you don't experience any interruptions. Dual watermarking provides a double layer of authentication, to give you a guarantee that the recorded video evidence from your NVRs has not been tampered with. This means that your recordings will be accepted in a court of law for prosecutions.

Even more importantly, our Distributed Network Architecture (DNA) means that there is no single point of failure in your system, so you still have access to video even if your primary NVR goes down. With IndigoVision, you'll therefore always have the recorded video evidence you need to support your security investigations.

# Record Index

## **Large Enterprise NVR-AS (NVR-AS 4000) 177**

- 7U to 22U Rack Mountable
- Record up to 800 Cameras per NVR
- Up to 4750Mbps throughput
- Up to 3PB storage
- ADAPT/RAID6
- Redundant Power, RAID Control and Networking

## **Enterprise NVR-AS (NVR-AS 4000) 179**

- 1U or 2U Rack Mountable
- Record up to 200 Cameras per NVR
- 2.4Gbps (2U) and 328Mbps (1U) throughput
- Up to 140TB storage
- RAID5 (1U) or RAID6 (2U)
- Redundant Power (optional) and Networking

## **Compact Network Video Recorder (NVR-AS 4000) 180**

- Small Footprint
- Record up to 20 cameras per NVR
- 40Mbps throughput
- Up to 4TB storage
- Redundant Networking

## **Windows NVR-AS Software 183**

- Windows Platform Software
- Record up to 200 cameras per NVR instance
- Flexible and scalable across a range of installations

a Motorola Solutions Company

NVR-AS 4000 RANGE

## Large Enterprise NVR-AS

Enterprise Recording. Intelligently Designed.

The IndigoVision Large Enterprise NVR-AS can record up to 800 cameras, has data throughput of 4Gbps and up to 3PB of usable storage. Guaranteed tamper free evidence, automatic failover and integrated backup. The Large Enterprise NVR-AS can also integrate other security systems for complete alarm management and has recording support for multiple camera manufacturers including ONVIF.

Supported Operating Systems	Windows Server® 2016 for Embedded Systems				
Automatic Storage Management	Policy based management options for automatic deletion or protection of old footage				
Recording Hard Drive	3.5in Nearline SAS				
Operating System and Configuration Hard Drive Bays	Dual redundant RAID1 mirrored drives separate from Recording Hard Drives				
RAID Controller	Dual Hardware RAID Controller with battery and flash backed cache configured as ADAPT*				
Attached Storage	Direct attached, Dual redundant 12Gbps SAS				
Network Interface	Dual Port Redundant 10Gb SFP+ (Video), Dual Port Redundant 1Gbps (Server Management), Dual Port Redundant 1Gbps (Storage Array Management), TCP, UDP, ICMP, IGMP, SNMP, HTTP, NTP, FTP				
Network Security	Windows Server Firewall, Network Access Protection (NAP)				
Regulatory	EN 60950-1, IEC 60950-1, EN 55022, CISPR 22, EN 61000-3-2, EN 55024, IEC 61000-3-2 (Class D), EN 61000-3-3, IEC 61000-3-3, CISPR 24, UL 60950-1				
Housing	Mild Steel Chassis and Fascia				
Electrical	Storage Array Server - 2 x 1100W, 100-240VAC, 50/60 Hz, Auto Switching, Dual-Redundant Hot Swap PSU Storage Array - 2200W, 7507 BTU, 200-240 VAC, 11.07-9.23A (x2), 50/60 Hz, Auto Switching, Dual Hot Swappable PSU				
Operating Temperature	10°C to 35°C (50°F to 95°F)				
System Management	iDRAC9 Express				
Supplied Accessories	Rack Mount Kit (brackets, static rails and mounting hardware), removable lockable fascia, PDU power cords (x2) and USB restore media				
Onboard Diagnostics	Fault alarm notification within Control Center for storage array RAID degradation, server operating system RAID degradation, RAID controllers, enclosures, fans, redundant power supplies, redundant network and temperature faults***. Additionally, embedded monitoring tools provide detailed fault diagnosis for all faults on the storage array server and storage array.				

Control Center Licensed Features	
The availability of the following NVR features varies based on the Control Center software product the NVR is connected to**	
Licensing	IndigoVision NVR appliances do not need a separate license. Video from any connected camera or encoder to the system can be recorded
Video	Simultaneously record and playback full frame rate, full resolution video streams from any connected IndigoVision IP Camera or Encoder. Record and playback from other devices including ONVIF Profile S conformant cameras and encoders as well as devices integrated via Camera Gateway™
Audio	Recording and playback of AAC and G.711 audio****
Thumbnails	Indexed recordings for rapid display of time-based, alarm-based or motion-based thumbnails
Alarms	Recording and logging of alarms and events
Bookmarks	Recording and logging of bookmarks in association with recordings
Integrated Data	Recording and logging of millions of data records from LPR, EPOS and other integrations
Analytics	Recording and playback of motion analysis data from cameras****
Redundancy and Failover	Full DNA support, sophisticated failover and mirroring strategies amongst multiple NVRs for increased resilience and redundancy
Digital Watermarking	Digital signing at point of recording and at export^

\* Can also be configured as RAID6. \*\* Please check the Control Center datasheets for more information. \*\*\* Please note that NVR-AS 15.4.10 or later is required \*\*\*\* Features may vary based on capabilities of camera model.

Onboard Diagnostics	Fault alarm notification within Control Center for RAID degradation, fans, redundant power supplies, recording failure and redundant network faults. Additionally, embedded monitoring tools provide detailed fault diagnosis for RAID arrays, controllers, enclosures and temperature faults.					
IndigoVision Software Requirements	Windows - Control Center v16.0 or later Linux - Control Center v16.0 or later			Windows - Control Center v13.2 or later Linux - Control Center v15.2 or later		

## Control Center Licensed Features

The availability of the following NVR features varies based on the Control Center software product the NVR is connected to\*\*

Licensing	IndigoVision NVR appliances do not need a separate license. Video from any connected camera or encoder to the system can be recorded
Video	Simultaneously record and playback full frame rate, full resolution video streams from any connected IndigoVision IP Camera or Encoder. Record and playback from other devices including ONVIF Profile S conformant cameras and encoders as well as devices integrated via Camera Gateway™
Audio	Recording and playback of AAC and G.711 audio*
Thumbnails	Indexed recordings for rapid display of time-based, alarm-based or motion-based thumbnails
Alarms	Recording and logging of alarms and events
Bookmarks	Recording and logging of bookmarks in association with recordings
Integrated Data	Recording and logging of millions of data records from LPR, EPOS and other integrations
Analytics	Recording and playback of motion analysis data from cameras*
Redundancy and Failover	Full DNA support, sophisticated failover and mirroring strategies amongst multiple NVRs for increased resilience and redundancy
Digital Watermarking	Digital signing at point of recording and at export

\* Features may vary based on capabilities of camera model.

\*\* Please check the Control Center datasheets for more information.

^^ 12 Bay Chassis has 12 Hard Drive Bays accessible from front of chassis.

14 Bay Chassis has 12 Hard Drive Bays accessible from front of chassis and 2 supported Internal Hard Drive Bays accessible from the top panel of chassis.

18 Bay Chassis has 12 Hard Drive Bays accessible from front of chassis and 4 Internal Hard Drive Bays accessible from the top panel of chassis and 2 rear accessible Hard Drive Bays.

# Compact Network Video Recorder

Small Size. Huge Performance.

With recording and simultaneous playback for up to 20 cameras, the IndigoVision Compact NVR-AS 4000 is ideal for smaller installations or for installations designed with distributed storage. With a Hard Disk Drive (HDD) that's optimised for 24/7 video recording, the Compact NVR-AS 4000 has recording support for multiple camera manufacturers.

# Windows NVR-AS v17.1 Software

Your route to scalable recording

The IndigoVision Windows Network Video Recorder is a software NVR application that supports internal disks, internal RAID array, SCSI RAID array, iSCSI and Fibre Channel SAN and NAS. The IndigoVision Windows Network Video Recorder can also integrate with other security systems for complete alarm management and has recording support for multiple camera manufacturers.

# Specification

		Control Center		
General Specification	IndigoUltra®	IndigoPro®	IndigoLite®	
Maximum Channels	200 per instance	80	40	
Included Device Connection Licenses	0			
Performance (Streams)	See Performance Guide			
Supported Operating Systems	Windows Server 2019®, Windows Server 2016®, Windows Server 2012 R2®, Windows Server 2012®, Windows 10® 64-bit, Windows 8.1® 64-bit			
Automatic Storage Management	Policy based management options for automatic deletion or protection of old footage			

Control Center Licensed Features	
The availability of the following NVR features varies based on the Control Center software product the NVR is connected to**	
Licensing	To connect third party hardware to an IndigoVision IndigoPro® or IndigoUltra® system a software license is required. One software license connects a single NVR instance
Video	Simultaneously record and playback full frame rate, full resolution video streams from any connected IndigoVision IP Camera or Encoder. Record and playback from other devices including ONVIF Profile S conformant cameras and encoders as well as devices integrated via Camera Gateway™ or Video Stream Manager (VSM)
Audio	Recording and playback of AAC and G.711 audio*
Thumbnails	Indexed recordings for rapid display of time-based, alarm-based, bookmark-based or motion-based thumbnails
Alarms	Recording and logging of alarms and events, Alarm Escalation, Alarm Schedules, Actions on Events, Zones, Event Inputs
Bookmarks	Recording and logging of bookmarks in association with recordings
Integrated Data	Recording and logging of millions of data records from LPR, EPOS, facial recognition and other integrations
Third Party Inputs	Through IndigoVision Integration Modules, IndigoVision Binding Kit or Digital Input
Redundancy and Failover	Full DNA support, sophisticated failover and mirroring strategies amongst multiple NVRs for increased resilience and redundancy
Automatic NVR Switching	Automatically switch between multiple NVRs to ensure continuous playback and export of video, even when there is a gap in recording on the primary NVR
Digital Watermarking	Digital signing at point of recording and at export

\* Features may vary based on capabilities of camera model. \*\* Please check the Control Center datasheets for more information. ^ Performance may vary based on the capabilities of the NVR-AS PC.

## NVR-AS PC Hardware Requirements

The NVR-AS PC is recommended to be server class with at least a quad-core processor, a minimum of 8GB of system memory and 128GB of local system disk space running Windows Server® 2016. Enabling digital signatures approximately doubles CPU usage. For reliable system operation, the total system CPU usage should be less than 70%. This means that digital signatures should not be enabled if the NVR- AS averages more than 35% CPU in normal operating conditions.

# INTEGRATE

## **Enhance your system with third party functionality for even greater flexibility**

The power of adding integrations between IndigoVision's VMS and third party software means that you can take your investigations to another level, in terms of the information your team has access to and the time they take to respond.

Operators can respond faster to incidents, as integrations remove the need to manually switch between systems such as access control, intruder management, intercoms and back to the VMS. Get increased situational awareness of events on your site, as immediate alerts are sent to operators, reducing the time it takes to react when incidents occur. Using integrations, control room operators can direct security personnel on-the-ground more effectively and quickly alert emergency services to any incident.

Our Video Management Software (VMS), Control Center, and cameras are ONVIF Profile S conformant, making them fully interoperable with other vendors' technology so that you can leverage external cameras as part of your system. Using Camera Gateway™, you have the freedom to connect any other manufacturer's cameras into your IndigoVision security system.

If you're looking for even greater flexibility, IndigoVision's Software Development Kit (SDK) allows software developers to integrate our Control Center VMS with third party software when there are no existing integration modules available, such as police communication systems in cities or radar systems in airport applications.

# Integrate Index

## **Camera Gateway™** 187

## Camera Gateway™

Freedom to choose any camera

The IndigoVision Camera Gateway™ enables cameras from a range of other manufacturers to be connected to the IndigoVision Control Center suite. It takes video streams from other manufacturers' cameras using their native protocols and integrates them into the Control Center front-end application.

Camera Gateway™ also supports audio, PTZ control, events and outputs. The cameras do not need to support ONVIF in order to connect to the IndigoVision system, giving customers a wide choice of cameras to integrate.

Camera Gateway™ is a software service that can be installed on a Windows server, giving total flexibility. The service enables multiple clients to stream video from the same camera, whilst only requiring a single stream from the camera to the Camera Gateway™.

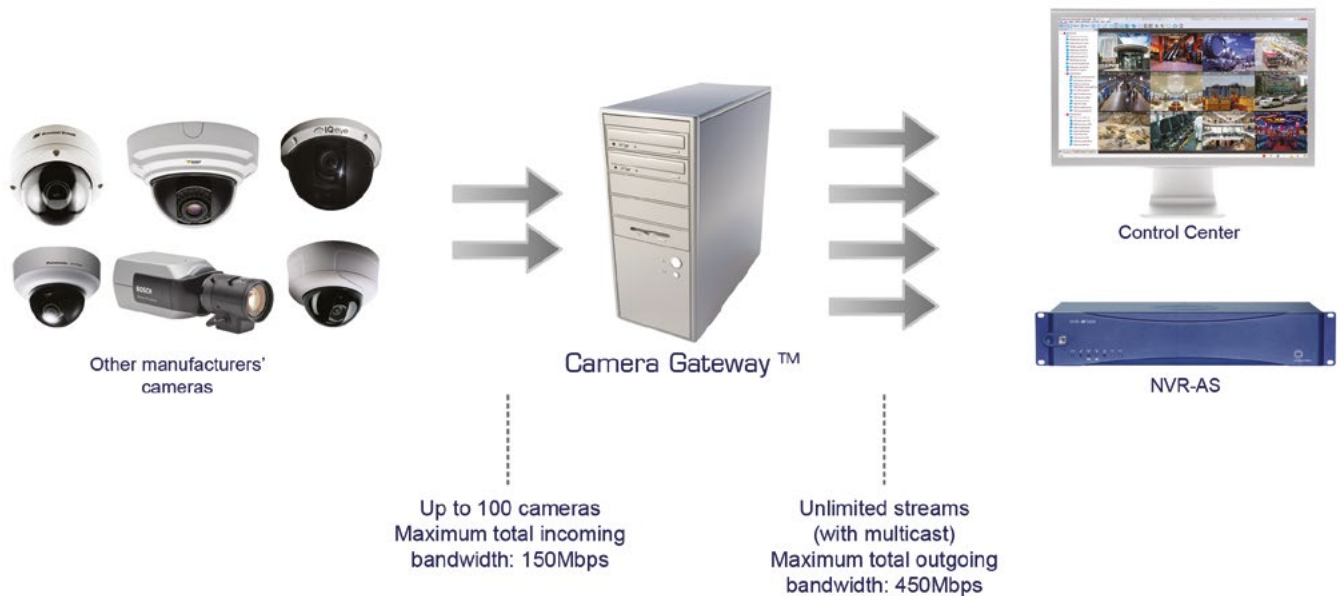

- Live video streaming MJPEG, MPEG-4 or H.264
- PTZ control
- Audio receive
- Dual streaming - select different profiles for live viewing and recording
- Events and outputs

# Specification

General Specification

## Video Stream Manager Software

Intelligently manage ultra-high resolution video & RTSP cameras

The IndigoVision Video Stream Manager (VSM) enables cameras from a range of other manufacturers to be connected to the IndigoVision Control Center suite by using the industry standard RTSP protocol.

The VSM also provides powerful and integrated enterprise management of ultra-high resolution JPEG2000 video from Ultra 5K cameras.

The VSM is a software service that can be installed on a Windows server, giving total flexibility. The service enables multiple clients to stream video from the same camera, whilst only requiring a single stream from the camera to the VSM.

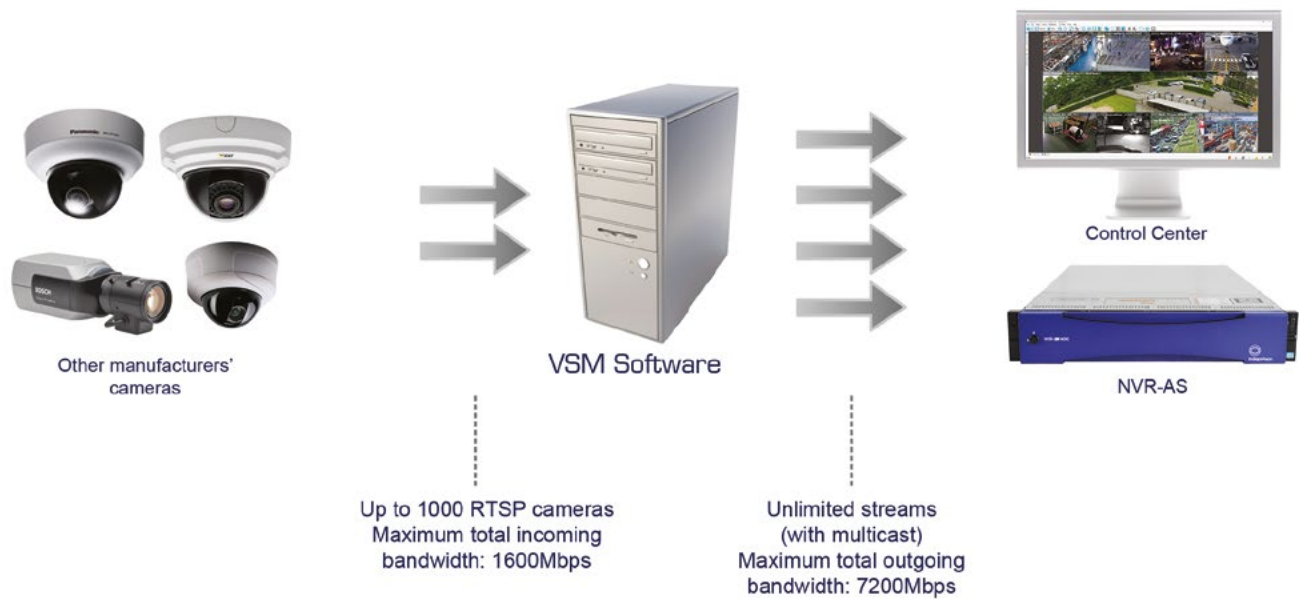

- Integrate a variety of third party cameras
- Live video streaming
- Supports up to 1000 RTSP cameras per server
- Supports ONVIF and IndigoVision's Ultra 5K cameras

# Specification

General Specification	
Live Video	Live video streaming from RTSP cameras: MJPEG, MPEG4, H.264 ONVIF PTZ Control Multicast from VSM to Control Center Live video streaming from Ultra 5K cameras: JPEG2000 Multiple Streaming - up to ten different streams from each Ultra 5K for live viewing or recording
Audio	Supported*
Recording and Playback	Record video: MJPEG, MPEG4, H.264, JPEG2000 Playback video Thumbnails, bookmarks
Alarms and Events	Not supported
Supported Devices	Cameras from a wide range of manufacturers including:  Axis Bosch Pelco  Samsung Sony
Supported Operating Systems	Windows © Server 2016 © (recommended), Windows © Server 2012 R2 ©, Windows © 8.1 (64-bit) ©
Recommended Hardware Specifications	Intel Xeon E5-2620 v3, 16GB RAM (4x 4GB); Intel X520 10GB Ethernet Adapter; Windows © Server 2012 R2 ©
Performance	Maximum incoming bandwidth (cameras to VSM), 1600Mbps Maximum outgoing bandwidth (VSM to Control Center and NVR), 7200Mbps Maximum number of RTSP cameras, provided the bandwidth is within the limits above: 1000 Maximum number of Ultra 5K Cameras: 2

\* Supports proxying events generated by ONVIF cameras

## VSM Software Diagram

## Software Development Kit

The IndigoVision Software Development Kit (SDK) allows software developers to integrate third party applications with the IndigoVision IP Video and Alarm Management System.

- Available to Authorised Partners free of charge, on the IndigoVision Product CD\*
- SDK consists of six components:
  - IndigoVision Binding Kit - Integrate events and alarms with third party systems (e.g. access control systems, alarm management systems)
  - Custom Objects - Create new functionality within the Control Center front-end application
  - Control Center Automation Interface - Interact programmatically with the Control Center front-end application
  - IndigoVision Snap - Automatically take snapshots at configurable intervals
  - Control Center Site Database SDK - Create applications that can retrieve information from a Control Center site database
  - Control Center Video SDK\* - Integrate video from an IndigoVision system into third party applications

### Product Codes

Software Development Kit	
IndigoVision Binding Kit	Included on the IndigoVision Product CD - Control Center - 340003
Custom Objects	
Control Center Automation Interface	
IndigoVision Snap	
Control Center Site Database SDK	Contact your Sales Agent for more information
Control Center Video SDK*	

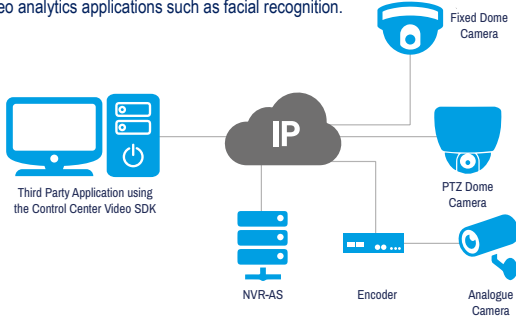

\* Although part of the Software Development Kit the 'Video Integration Kit' component is not available on the IndigoVision Product CD, this is obtainable by contacting your Sales Agent.

# SDK Components

## Control Center Video SDK

The IndigoVision Control Center Video SDK provides a high performance way to integrate video from an IndigoVision system into third party application software. The SDK enables live video display, PTZ control, and playback and export of recordings.

The SDK can be used to create GUI applications which display live and recorded video. In addition, live and recorded video from an IndigoVision system can be integrated into server video analytics applications such as facial recognition.

## Control Center Site Database SDK

The IndigoVision Control Center Site Database SDK provides access to information held in the Control Center site database, including camera names, credentials and primary NVRs.

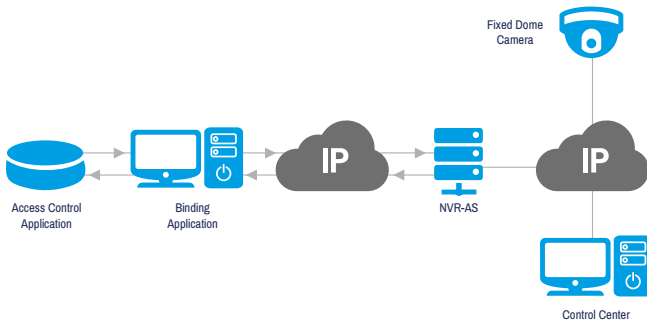

Programmers can use this information, for example with the Control Center Video SDK, to stream live video from a camera or recorded video from an NVR.

## IndigoVision Binding Kit

The IndigoVision Binding Kit allows you to integrate two types of external data with the IndigoVision system. The first type is alarm information, for example events from access control or fire alarm systems. The second type is text data from systems such as EPOS or LPR. Both types can be associated with a camera within Control Center. This is useful for reviewing recordings associated with particular events from these third party systems.

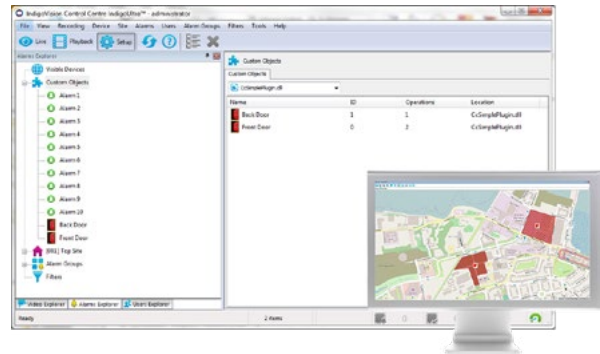

The Binding Kit supports text data at rates up to 1 event per second, with up to 3 million records per NVR-AS making it suitable for a wide range of applications.

## Custom Objects

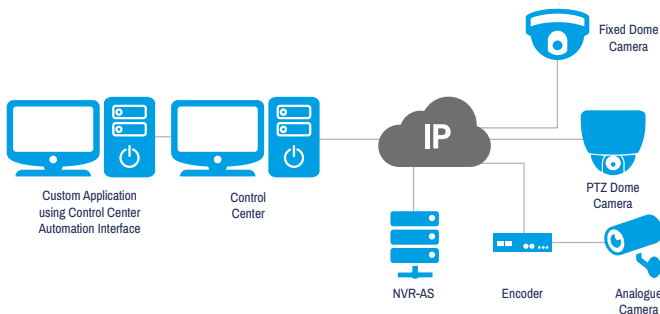

The IndigoVision Custom Object SDK allows third party developers to integrate objects into Control Center. For example, an integration between Control Center and an access control system could create objects representing doors. The door objects could be controlled within the Control Center front-end application via the mouse and custom menus. In addition, the access control system could refresh the state of a door object by changing its icon automatically.

The Custom Object SDK supports customized icons, menus and actions, and objects can be added to Control Center's device hierarchy and maps.

## Control Center Automation Interface

The IndigoVision Control Center Automation Interface is a COM interface that enables external scripts and programs to carry out a number of operations on the Control Center front-end application. These include starting and stopping live video, playing back and exporting recordings and moving PTZ cameras.

## IndigoVision Snap

The IndigoVision Snap utility allows you to take snapshots from a specified IndigoVision device at regular intervals and save them to a destination directory in JPEG format.

IndigoVision's Integration Modules integrate third party systems such as access control and intruder detection systems with Control Center, IndigoVision's complete suite of management software. The modules allow a flow of events between IndigoVision and the external system in a totally seamless fashion to deliver a fully integrated security solution. Third party events can trigger a wide range of actions within the IndigoVision system including starting recordings, displaying live video, moving PTZ cameras and sending notification emails. Some third party systems can also receive events from IndigoVision.
