Corporate News – Contactless Smart Cards

January 2007

### **ID Electronics in Poland signs LEGIC<sup>®</sup> License Agreement**

Zurich/Switzerland, Warsaw/Poland. LEGIC Identsystems Ltd., the world-leading supplier of contactless smart card technology for personal identification applications, and the Polish security specialist ID Electronics Ltd. have signed a license agreement. With their long experience in the field of access control and other security systems and their broad base of satisfied customers, the partnership with ID Electronics contributes to strengthening LEGIC's position in Eastern Europe.

ID Electronics was established in 1993 and played a substantial role in the development of the technical protection and security industry in Poland. With 30 employees, the company provides complex and professional equipment, installations, services and projects in the field of electronic security systems, based on the leading and latest technologies. With their sound diagnosis of customers' needs, individually developed concepts and tailor-made solutions they have grown to be the trusted security system providers for many Polish and international customers. Amongst their clients rank public administration facilities, office buildings, educational, cultural, financial, and insurance institutions, power plants, pharmaceutical companies, police, military, telecommunication, and tourist facilities.

ID Electronics' service and product range covers the design of security plans, sale of equipment and preparation of installation designs for access control, intrusion

and hold-up alarm systems, CCTV, fire detection as well as integrated systems. Its activities are based on equipment provided by renowned manufacturers and they are fuelled by the company's decisive strive for innovative products and state-of-the-art technology. ID Electronics are now venturing into a new generation of access control systems with contactless identification. With the LEGIC license agreement, ID Electronics gains access to the world-leading contactless smart card technology for personal identification, as well as LEGIC's global partner network.

Andrzej Tomczak, President of ID Electronics is convinced, the partnership with LEGIC will further boost the company's business: „Keeping pace with the ever-increasing and changing requirements in the security industry, and most accurately fulfilling our clients' expectations are two core policies of ID Electronics. The LEGIC smart card technology for contactless personal identification enables us to live up to this policy and enhance our systematic product innovation. The all-in-one-card technology also perfectly matches our tailor-made solutions.”

“We have sought to continuously strengthen our position in the Eastern European countries, lately,” comments Stephen Neff, Vice President Sales & Business Development at LEGIC Identsystems Ltd., on the new partnership. “With ID Electronics we gain a reputed partner in the Polish market who contributes more than a dozen years of experience in the security industry to both LEGIC and our partner network – a promising perspective for innovative contactless smart card solutions.” ■
